84-365

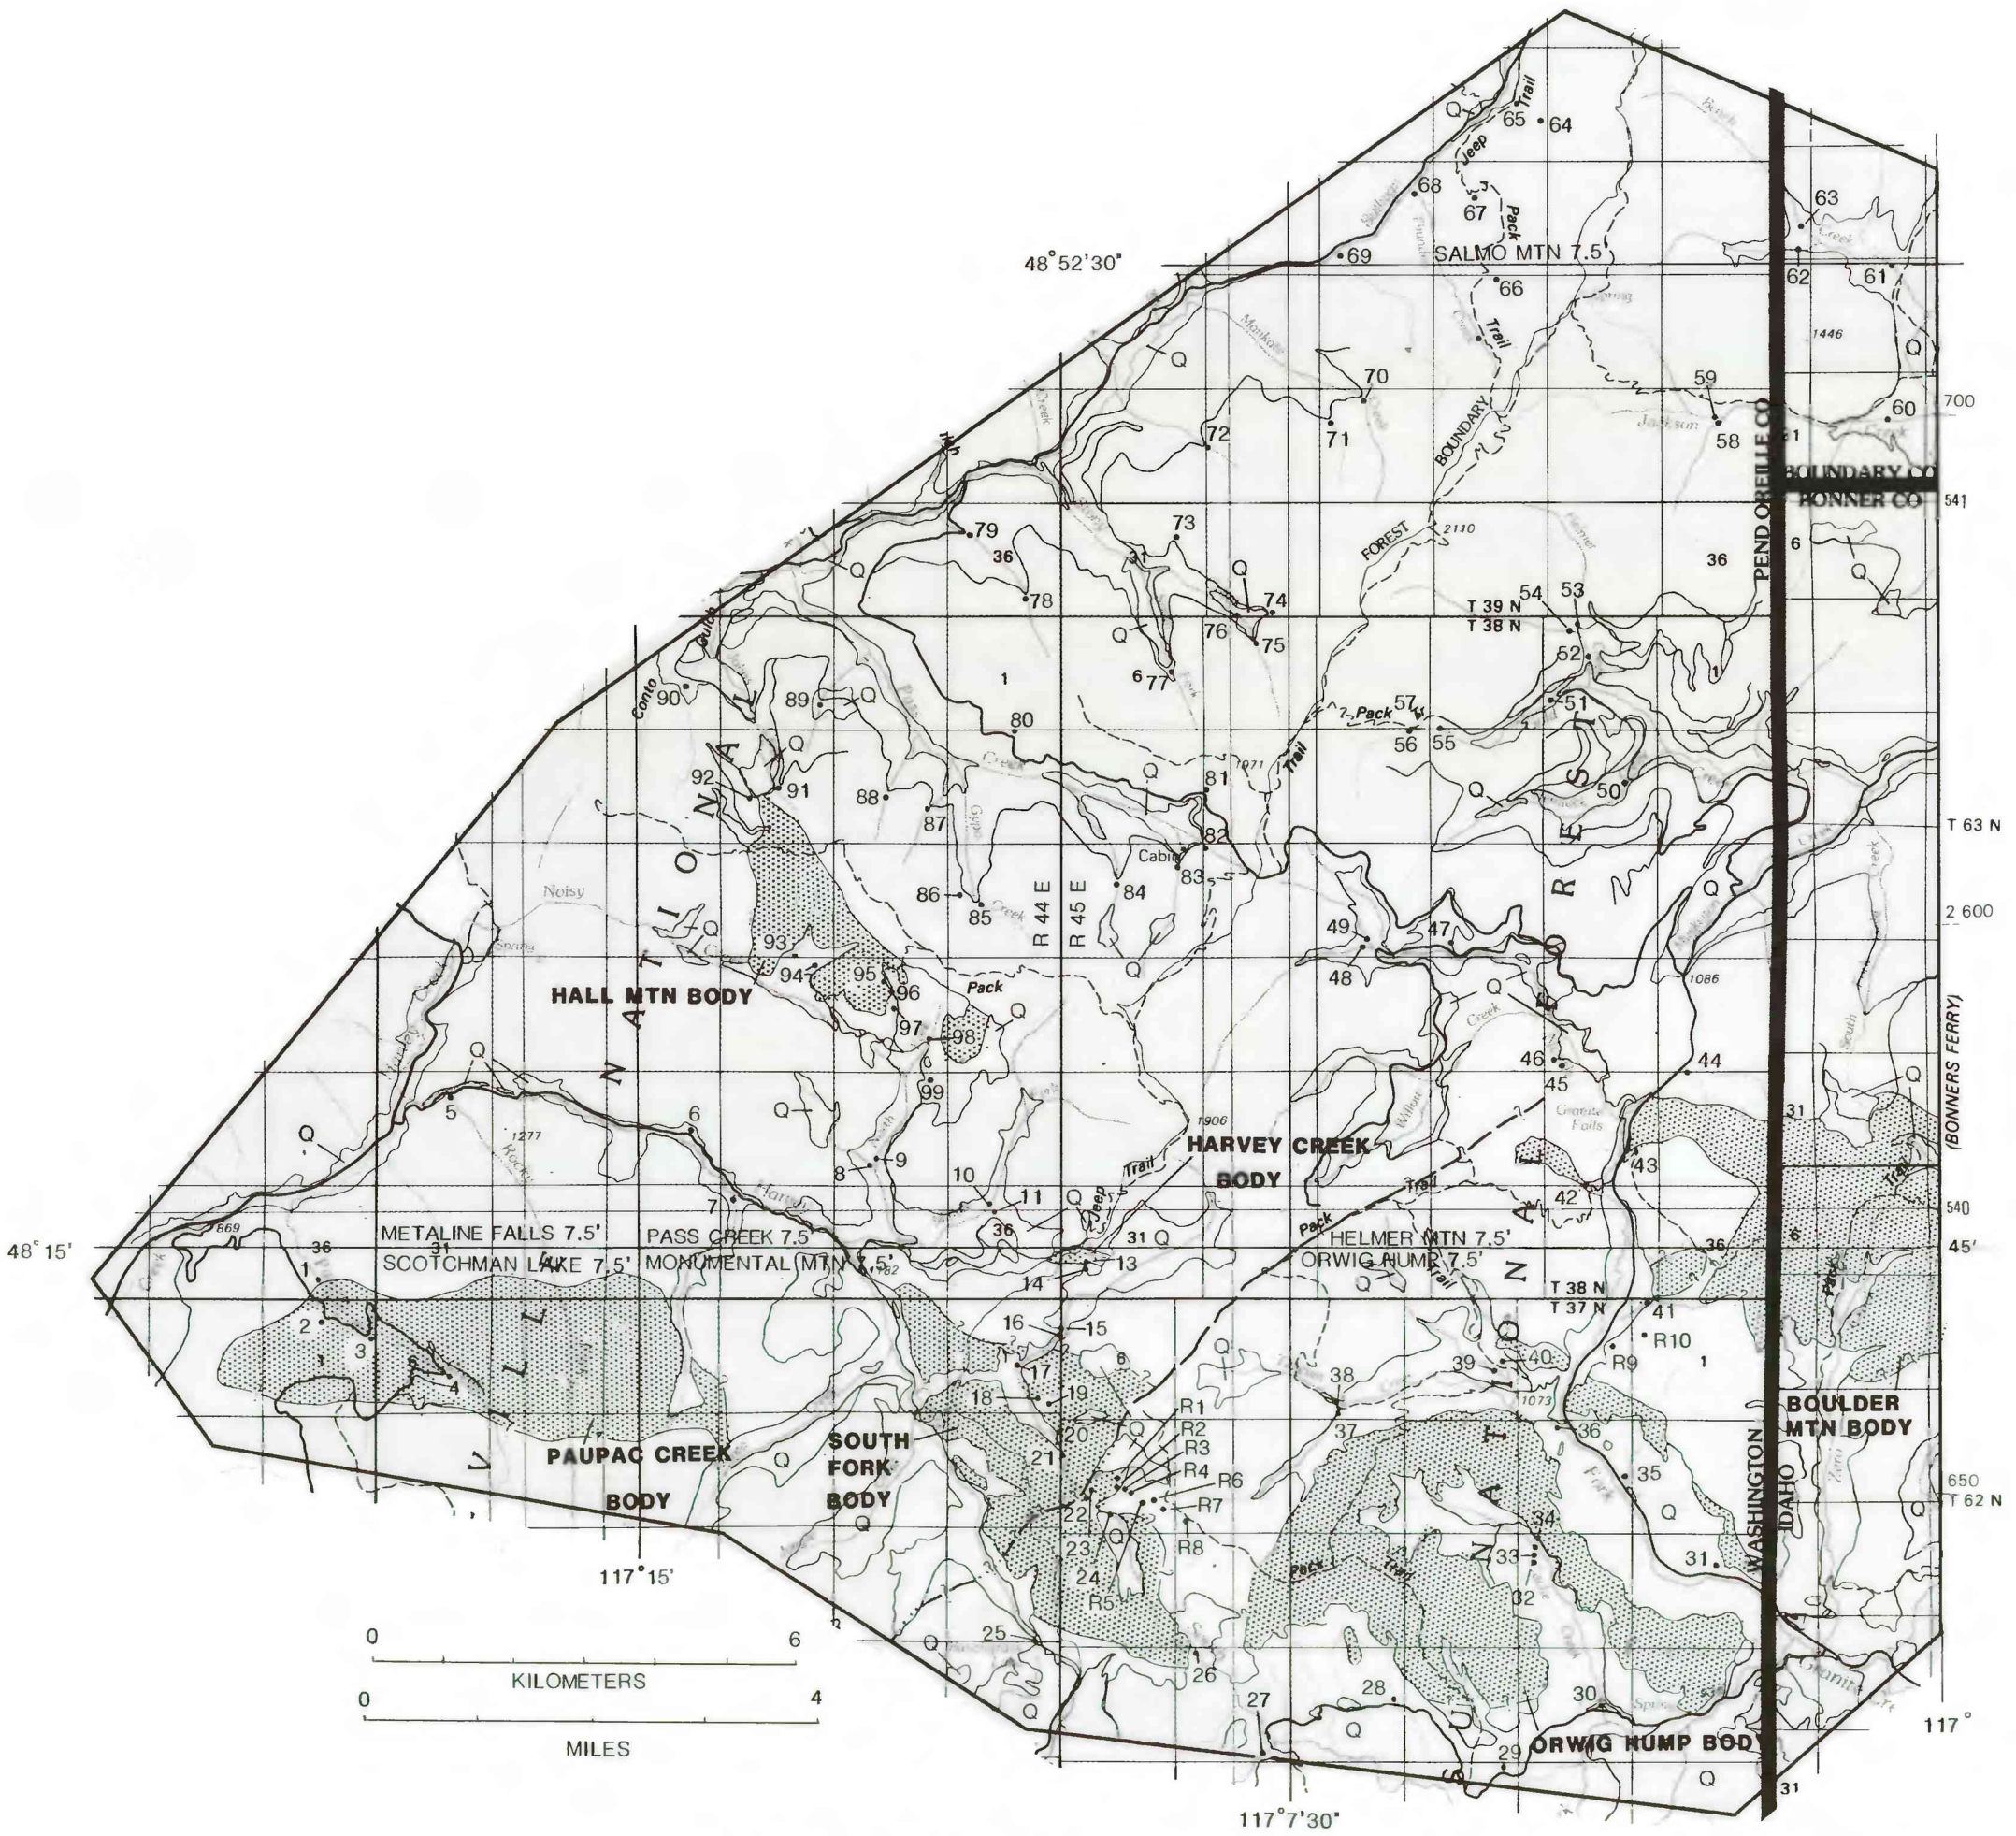

Figure 2. Geologic sketch map showing location of Hall Mountain granodiorite plutons and localities of stream sediment and rock samples. Only plutons (stippled pattern) and Quaternary material (Q) are shown. Geochemical data for numbered sample localities is given in tables 1, 2, and 3. Base from USGS 1 : 100,000 scale series Colville 1 degree by two degree quadrangle. Area includes parts of the Colville and Kaniksu National Forests.
