
SCALE 1:250 000

5 0 5 10 15 MILES

5 0 5 10 15 KILOMETERS

CONTOUR INTERVAL 200 FEET

Moderate and high intensity Be-association anomaly

Area delineation for E.M. calculations

X Be prospects

● Stream sediment sample sites at which Be concentration is ≥5.0 ppm

For geologic symbols, see Explanation, Plate 1

This report is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards nor with the North American stratigraphic code.
