
EXPLANATION

Interbedded sandstone and conglomerate

Conglomeratic siltstone

Thick-bedded sandstone

Concretionary sandstone

Sandstone with thin siltstone beds

Thick-bedded and thin-bedded sandstone

Thin-bedded sandstone and siltstone

Siltstone

Interbedded siltstone and claystone

Correlation line, dashed where inferred

8

Designation of section on geologic map

28

Unit number referred to in text and shown on geologic map

Thicknesses of numbered sections measured by planetable with the exception of 1, which was taped; unnumbered section (units 1 through 5) estimated from geologic map

STRATIGRAPHIC SECTIONS OF THE EOCENE STRATA EXPOSED ON SAN NICOLAS ISLAND, CALIFORNIA
