

(200)
R290
no. 1390

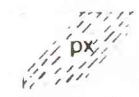

EXPLANATION

Saxonite

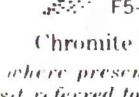

Dunite

Pyroxenite

Gabbro

Chromite

Letters and numbers, where present, indicate designated deposit referred to in text

Approximate contact

Fault showing direction of dip
Dashed where inferred. Number, where present,
indicates angle of dip

Inclined Vertical
Strike and dip of chromite layers

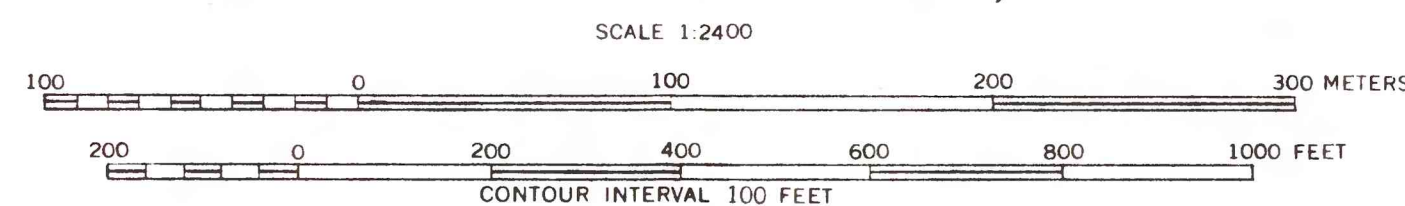

Inclined Vertical
Strike and dip of layering indicated
by silicate minerals

1460
Mine workings
Number indicates working level

Road

Base compiled from maps by Acoje Mining Co.

GEOLOGIC MAP OF THE ACOJE MINE AREA, ZAMBALES, PHILIPPINES

Geology by D. L. Rossman and Deodoro Abiog, 1958 and 1959
Some geologic information in the southern part of map from
Acoje Mining Co.
