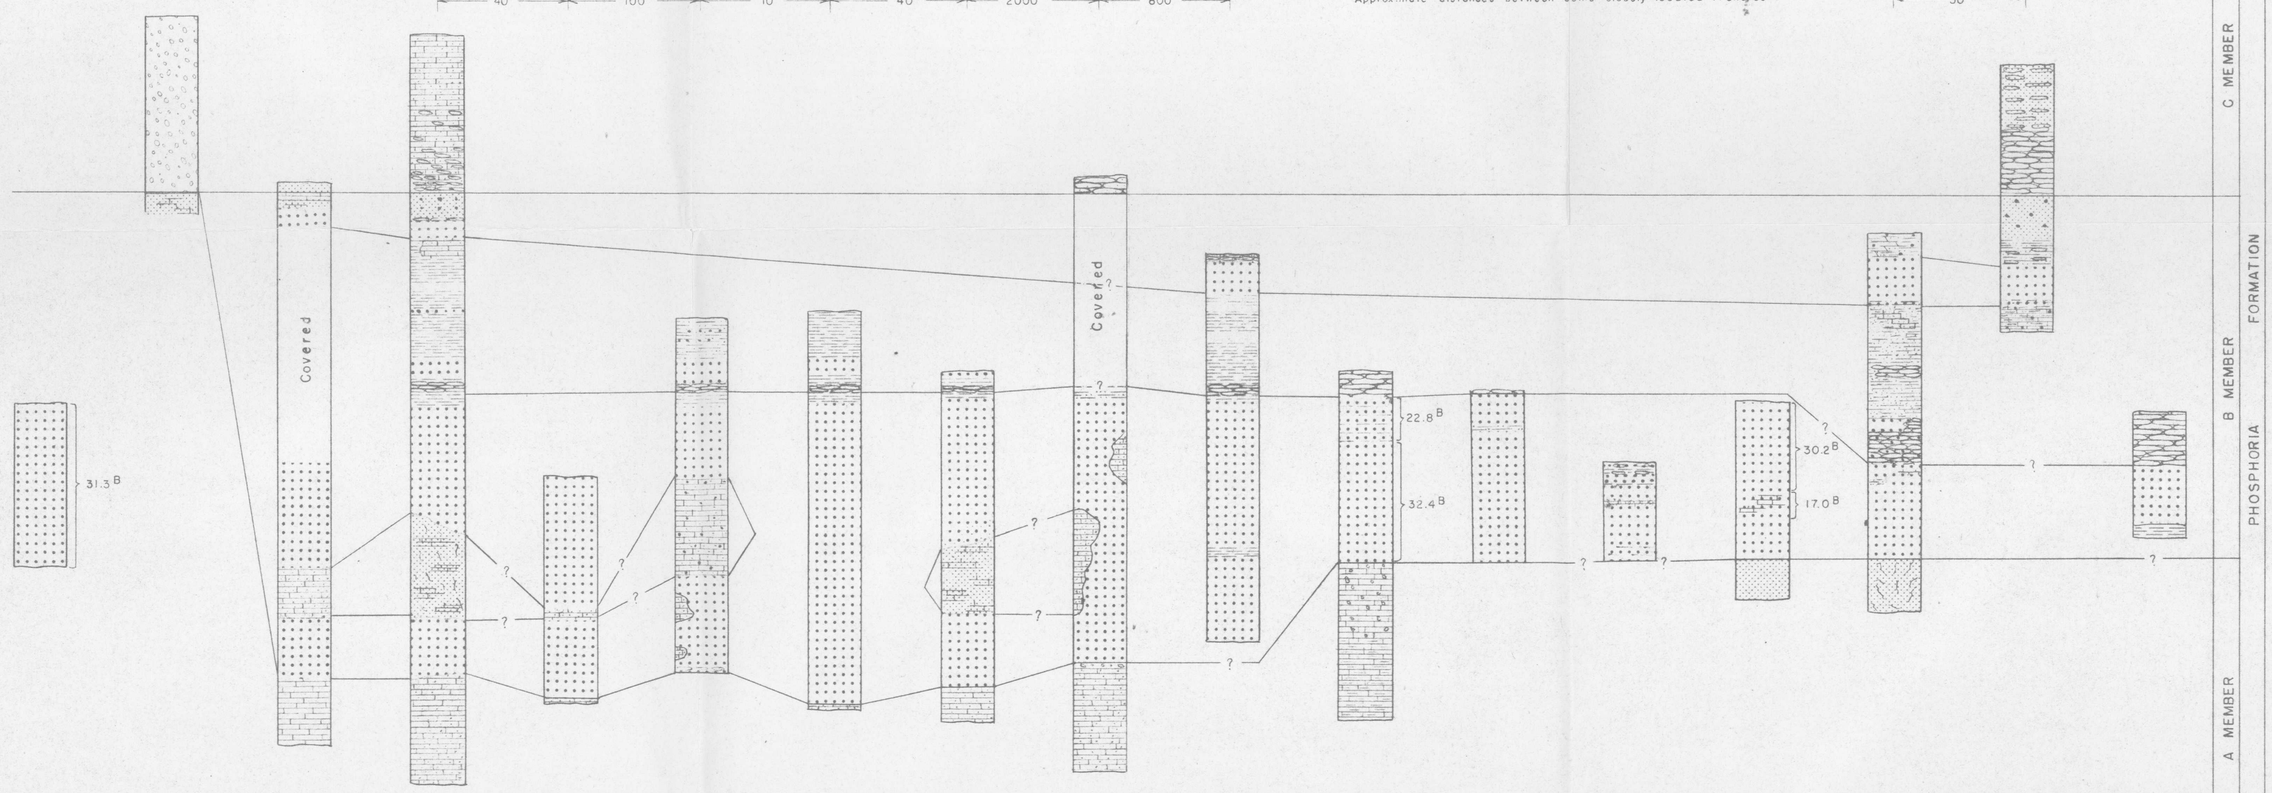
PLEASE REPLACE IN POCKET
IN BACK OF BOUND VOLUME



NOTE: A. Sections sampled in 1948 are included here for comparison with more detailed study of same sections in 1952. Analyzed 1948 samples can thus be approximately located on the more detailed 1952 sections.
B. P_2O_5 content.
C. Location of units in section arbitrary.
D. See plate 2 for location of trenches and outcrops.

EXPLANATION

Phosphate rock | Chert | Limestone | Dolomite | Mudstone | Siltstone | Sandstone | Conglomerate

Vertical Scale: 1" = 4'

4 3 2 1 0 4 8

CORRELATION CHART OF THE B MEMBER AND ADJOINING BEDS, CENTENNIAL RANGE, MONTANA-IDAHO

By Fred S. Honkala, U.S.G.S., 1952
