

PLAN OF TRENCH 2,
SHOWING LOCATION OF SECTIONS

EXPLANATION

Quaternary — Qal — Alluvium

Tertiary, Eocene — Tgw — Green River and Wasatch formations, undifferentiated

Outlines of schroeckingerite deposits

LRP-106; (1.3); .018; .031
LRP-105; (11.4); .019; .028

Sample number; (sample area in square feet); percent equivalent uranium; percent uranium

LRP-H-107; 10.0; .005; .004

Horizontal sample number; sample length (feet); percent equivalent uranium; percent uranium

BLOCK I

Outline of mining block for reserve calculations – Schedule C

Geology by L.R. Page, D.M. Sheridan, C.T. Pierson, and J.T. Collier
January 1952
