TOPOGRAPHIC MAPPING **SEPTEMBER 30, 1977**

This map, which is based on a grid network designed to fit a computer printout, shows published topographic maps and work in progress by the Geological Survey and other Federal agencies.

STATUS OF TOPOGRAPHIC MAPPING

- Published 7½-minute map, 1:24,000 scale
- Published 15-minute map, 1:24,000 standards (7½-minute copy available)
- Published 15-minute map, 1:62,500 standards
- Published 15-minute map, substandard quality

For areas covered by both scales only the 7½-minute coverage is shown. The 7½-minute series is published at 1:24,000 scale and the 15-minute series at 1:62,500 scale except for Puerto Rico (1:20,000) and Alaska (1:63,360).

PROGRESS OF OPERATIONS

- Authorized
- Aerial photography flown
- Photo copy of map drawings available
- Awaiting publication

TYPE OF MAPPING

- Standard quadrangle map
- Orthophotomap
- Standard or complete revision
- Interim revision

Areas indicated by the screen pattern will be inspected and those in need will be revised.

Areas identified with the letter "T" are being revised by the Tennessee Valley Authority.

The names of published maps are shown on indexes issued for each state. These indexes and further information concerning current mapping projects, the availability of maps, orthophotoquads, aerial photographs, geodetic control data, and advance map materials may be obtained from the National Cartographic Information Center, U.S. Geological Survey, 12201 Sunrise Valley Drive, Reston, Virginia, 22092
