EXPLANATION
Well
Well, abandoned or destroyed
(Numbers refer to description in text)
Qrc
River-channel deposits (Coarse sand and gravel in the flood channels of rivers)
Qyal
Younger alluvium (Clay, silt, sand, and gravel beneath alluvial plains and low terraces along rivers)
QUATERNARY
Other geologic formations not shown
5 Miles
Base from map by Santa Maria Valley Water Conservation District and from U. S. Geological Survey topographic maps. Compiled in 1944.
Broken land lines projected, for reference only.
Hydrology by G. A. LaRocque, Jr., and G. F. Worts, Jr.
Geology by G. F. Worts, Jr., in part after W. P. Woodring and others. Surveyed in 1938-1944.
