

EXPLANATION

Inferred geologic contact

Inferred direction of ground-water flow

Inferred position of fresh-water and salt-water interface

Screen zone and bottom of casing

Chloride concentration of water, in parts per million

Bottom of test hole

Well in line of section

Well, drill hole, or test pit projected into line of section

Line of sections shown on plate 2

250 0 250 500 750 1000 FEET

GEOHYDROLOGIC SECTIONS OF PLUM ISLAND, NEW YORK
