

Table 7. Parameters used at Lares 1, Lares 2, Lares 3, and Lares 4 sections for resource calculations shown on Table 8.

Lares 1:      Measured: 0.46 m thick  
          A        0-30 m overburden  
          B        30-150 m  
          Indicated:  
          C        0-30 m  
          D        30-150 m  
          E        0-30 m

Lares 2, Lares 3, Lares 4:  
          Measured: 0.36 m  
          F        0-30 m  
          G        30-150 m  
          Indicated: 0.30 m  
          H        0-30 m  
          J        0-30 m  
          I        30-150 m  
          Inferred: 0.30 m  
          K        0-30 m  
          L        30-150 m  
          M        0-30 m  
          N        greater than 150 m  
          O        30-150 m  
          P        0-30 m  
          Q        0-30 m  
          R        0-30 m  
          S        30-150 m  
          T        30-150 m  
          U        30-150 m
