

U.S. Department of the Interior
United States Geological Survey

Plot derived from
Open-File Report 98-348

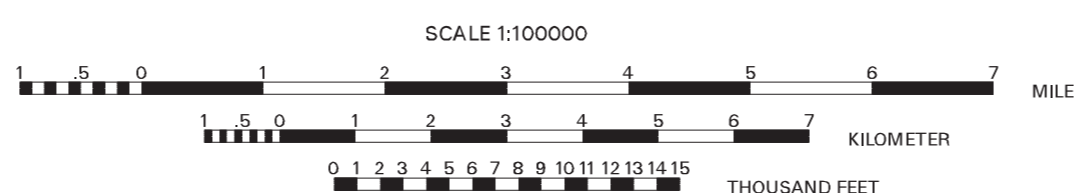

Base scanned from U.S. Geological
Survey Palo Alto (1983) 1:100,000
topographic maps

Universal Transverse Mercator
projection, Zone 10

This map is a plot derived from
data contained in the digital database
Open-File Report 98-348, "Geology
of the Palo Alto 30 x 60 minute
quadrangle, California." A digital
database of this map is included in the Open-File
Report, but the Open-File Report does
not contain a paper copy of
this map. The Open-File Report consists
of the digital data and a pamphlet
explaining the database and indicating
how to obtain the data from which this map
was prepared as well as the PostScript
image of the map. The pamphlet also
explains how those without computers can
obtain a plot of this map from a
private vendor.

INDEX MAP OF QUADRANGLES
IN THE PALO ALTO 30 X 60
MINUTE QUADRANGLE

CONTOUR INTERVAL 50 METERS

GEOLOGY OF THE PALO ALTO 30 X 60 MINUTE QUADRANGLE, CALIFORNIA: DERIVED FROM THE DIGITAL DATABASE OPEN-FILE 98-348

By
E.E. Brabb, R.W. Graymer, and D.L. Jones
1998

This report is preliminary and has not
been prepared for circulation with U.S.
Geological Survey without circulation
form names as for descriptive purposes
only and does not imply endorsement by
the U.S. Government.
This database, identified as "Geology
of the Palo Alto 30 x 60 minute
quadrangle, California: A digital
database" has been approved for
release and publication by the Director
of the USGS. Although the database
has been subjected to rigorous review
and is available for use, the USGS
reserves the right to withhold the data
pursuant to further analysis and review.
Furthermore, it is released on condition
that neither the USGS nor the United
States Government may be held liable for
any damages resulting from its authorized
or unauthorized use.
