

Appendix 3. Hydrograph for groundwater monitoring well GWM 79 modified from Danish Committee for Aid to Afghan Refugees (2011).

GWM_ID	79	Well type	Latitude	33.26911
District	Shindand		Longitude	61.9313
Place	Qalai Pain	Organisation in charge of the measurement		
Method	manual (with modified well)		DACAAR	

EXPLANATION

+++++ depth to water (m) below ground surface – right vertical axis
— groundwater specific conductance (µS/cm) – left vertical axis

The horizontal axis on the hydrograph is the date given as week number and year (for example, 29 '05 is week number 29 in 2005). The left vertical axis is the groundwater specific conductance in microsiemens per centimeter (µS/cm) and the right vertical is the depth to water in meters (m) below ground surface (bgs).
