

Appendix 3. Hydrograph of groundwater monitoring well GWM 45 modified from Danish Committee for Aid to Afghan Refugees (2011).

GWM_ID	45	Well type	Latitude	33.65857
District	Pasaband		Longitude	65.12406
Place	Astarghana		Organisation in charge of the measurement	
Method	manual (with modified well)		DACAAR	

EXPLANATION

+++++ depth to water (m) below ground surface – right vertical axis
 _____ groundwater specific conductance (µS/cm) – left vertical axis

The horizontal axis on the hydrograph is the date given as week number and year (for example, 31 '05 is week number 31 in 2005). The left vertical axis is the groundwater specific conductance in microsiemens per centimeter (µS/cm) and the right vertical is the depth to water in meters (m) below ground surface (bgs).
