

Appendices

- 1.** Selected water-quality characteristics of samples collected at site LH1 by the City of Newport News personnel and analyzed by the City of Newport News laboratory, Lee Hall Reservoir, Virginia, January 1999–August 2003.
- 2.** Selected water-quality characteristics of samples collected at site LH2 by the City of Newport News personnel and analyzed by the City of Newport News laboratory, Lee Hall Reservoir, Virginia, January 1999–August 2003.
- 3.** Selected water-quality characteristics of samples collected at site LH3 by the City of Newport News personnel and analyzed by the City of Newport News laboratory, Lee Hall Reservoir, Virginia, January 1999–August 2003.
- 4.** Selected water-quality characteristics of samples collected monthly from the raw-water withdrawal by the City of Newport News personnel and analyzed by the City of Newport News laboratory, Lee Hall Reservoir, Virginia, January 1999–August 2003.
- 5.** Selected water-quality characteristics of samples collected weekly from the raw-water withdrawal by the City of Newport News personnel and analyzed by the City of Newport News laboratory, Lee Hall Reservoir, Virginia, January 1999–August 2003.
- 6.** Selected water-quality characteristics of samples collected at site HM1 by the City of Newport News personnel and analyzed by the City of Newport News laboratory, Harwoods Mill Reservoir, Virginia, January 1999–August 2003.
- 7.** Selected water-quality characteristics of samples collected at site HM2 by the City of Newport News personnel and analyzed by the City of Newport News laboratory, Harwoods Mill Reservoir, Virginia, January 1999–August 2003.
- 8.** Selected water-quality characteristics of samples collected at site HM3 by the City of Newport News personnel and analyzed by the City of Newport News laboratory, Harwoods Mill Reservoir, Virginia, January 1999–August 2003.
- 9.** Selected water-quality characteristics of samples collected from the raw-water withdrawal by the City of Newport News personnel and analyzed by the City of Newport News laboratory, Harwoods Mill Reservoir, Virginia, January 1999–August 2003.
- 10.** Selected water-quality characteristics of samples collected weekly from the raw-water withdrawal by the City of Newport News personnel and analyzed by the City of Newport News laboratory, Harwoods Mill Reservoir, Virginia, January 1999–August 2003.
- 11.** Metals concentrations in bed-sediment grab samples, Lee Hall and Harwoods Mill Reservoirs, Virginia.
- 12.** Nutrient concentrations in bed-sediment grab samples, Harwoods Mill Reservoir, Virginia.
- 13.** Metals concentrations in box-core samples of bed sediment from sites LH1 and LH3, Lee Hall Reservoir, Virginia.
- 14.** Nutrient concentrations in box-core samples of bed sediment from sites LH1 and LH3, Lee Hall Reservoir, Virginia.
- 15.** Metals concentrations in filtered interstitial water from box-core samples of bed sediment from sites LH1 and LH3, Lee Hall Reservoir, Virginia.
- 16.** Metals concentrations in unfiltered interstitial water from box-core samples of bed sediment from sites LH1 and LH3, Lee Hall Reservoir, Virginia.

Appendix 1. Selected water-quality characteristics of samples collected at site LH1 by City of Newport News personnel and analyzed by the City of Newport News laboratory, Lee Hall Reservoir, Virginia, January 1999–August 2003.
