

Appendix 7. Excel Spreadsheets Containing National Water-Quality Assessment Data for Individual States by Major-Aquifer Study.

The spreadsheets in Appendix 7 contain concentration analysis of NAWQA data by major-aquifer study for each of the 16 grantee States. Each individual spreadsheet has all the same information as the spreadsheet [nawqa.conc.analysis.by.aquifer.xls](#), but has data for major-aquifer studies specific to each grantee State. Because the areal extent of some NAWQA major-aquifer studies go beyond the State boundary for a particular grantee State, results for a particular major-aquifer study can appear in spreadsheets for more than one State. All data associated with a major-aquifer study are provided even if the sampled well was located outside the State boundary. The following spreadsheets contain NAWQA data by major-aquifer study for the individual States:

California: [CA.nawqa.conc.analysis.by.aquifer.xls](#)
Connecticut: [CT.nawqa.conc.analysis.by.aquifer.xls](#)
Florida: [FL.nawqa.conc.analysis.by.aquifer.xls](#)
Maine: [ME.nawqa.conc.analysis.by.aquifer.xls](#)
Maryland: [MD.nawqa.conc.analysis.by.aquifer.xls](#)
Massachusetts: [MA.nawqa.conc.analysis.by.aquifer.xls](#)
Missouri: [MO.nawqa.conc.analysis.by.aquifer.xls](#)
New Hampshire: [NH.nawqa.conc.analysis.by.aquifer.xls](#)
New Jersey: [NJ.nawqa.conc.analysis.by.aquifer.xls](#)
New Mexico: [NM.nawqa.conc.analysis.by.aquifer.xls](#)
New York: [NY.nawqa.conc.analysis.by.aquifer.xls](#)
Oregon: [OR.nawqa.conc.analysis.by.aquifer.xls](#)
Pennsylvania: [PA.nawqa.conc.analysis.by.aquifer.xls](#)
Utah: [UT.nawqa.conc.analysis.by.aquifer.xls](#)
Washington: [WA.nawqa.conc.analysis.by.aquifer.xls](#)
Wisconsin: [WI.nawqa.conc.analysis.by.aquifer.xls](#)

Each spreadsheet in Appendix 7 contains five worksheets, including two readme worksheets (“Readme1” and “Readme2”) that describe information contained in the other worksheets. The “Benchmarks” worksheet describes USEPA benchmarks. The “Aquifer descriptions” worksheet provides an overview of the aquifers from which samples were collected. The “Summary statistics” worksheet has water-quality information (for 11 selected contaminants) for each NAWQA major-aquifer study specific to each grantee State.
