

## Annual Peak-Flow Frequency Analysis

For more information on the contents of this documentation, see Kessler and others (2013).

### Streamgage number and name:

05040000 Pelican River near Detroit Lakes, Minn.

### Peak-flow information:

|   |      |
|---|------|
| Number of systematic peak flows in record | 11   |
| Systematic period begins                  | 1943 |
| Systematic period ends                    | 1953 |
| Length of systematic record               | 11   |
| Years without information                 | 0    |
| Number of historical peak flows in record | 0    |

### Frequency analysis options:

|                                    |                               |
|------------------------------------|-------------------------------|
| Method                             | Bulletin 17B                  |
| Skew option                        | Weighted                      |
| Generalized skew                   | -0.206                        |
| Standard error of generalized skew | 0.426                         |
| Low-outlier method                 | Bulletin 17B Grubbs-Beck test |

### Bulletin 17B systematic record analysis results:

#### Moments of the common logarithms of the peak flows:

Standard

|        |           |          |
|--------|-----------|----------|
| Mean   | deviation | Skewness |
| 2.1402 | 0.1510    | -0.023   |

#### Outlier criteria and number of peak flows exceeding:

|      |       |   |
|------|-------|---|
| Low  | 66.8  | 0 |
| High | 285.4 | 0 |

**Bulletin 17B Final analysis results:**

**Moments of the common logarithms of the peak flows:**

|        | Standard  |          |
|--------|-----------|----------|
| Mean   | deviation | Skewness |
| 2.1402 | 0.1510    | -0.151   |

**Annual frequency curve at selected exceedance probabilities:**

[WIE, Weighted independent estimate; --, not computed]

| Exceedance probability | Peak estimate | Lower-95 level | Upper 95 level | WIE estimate | Lower-95 WIE level | Upper 95 WIE level |
|------------------------|---------------|----------------|----------------|--------------|--------------------|--------------------|
| 0.9950                 | 53.7          | 29.7           | 72.1           | --           | --                 | --                 |
| 0.9900                 | 59.2          | 34.5           | 77.7           | --           | --                 | --                 |
| 0.9500                 | 76.8          | 51.3           | 95.6           | --           | --                 | --                 |
| 0.9000                 | 88.0          | 62.8           | 107.0          | --           | --                 | --                 |
| 0.8000                 | 103.0         | 79.0           | 123.0          | --           | --                 | --                 |
| 0.6667                 | 120.0         | 96.3           | 142.0          | --           | --                 | --                 |
| 0.5000                 | 139.0         | 116.0          | 168.0          | 142          | 116                | 173                |
| 0.4292                 | 148.0         | 124.0          | 181.0          | --           | --                 | --                 |
| 0.2000                 | 186.0         | 155.0          | 243.0          | 192          | 155                | 239                |
| 0.1000                 | 214.0         | 176.0          | 299.0          | 227          | 177                | 290                |
| 0.0400                 | 249.0         | 200.0          | 374.0          | 271          | 203                | 363                |
| 0.0200                 | 274.0         | 216.0          | 431.0          | 305          | 220                | 423                |
| 0.0100                 | 298.0         | 231.0          | 490.0          | 340          | 236                | 489                |
| 0.0050                 | 322.0         | 245.0          | 551.0          | --           | --                 | --                 |
| 0.0020                 | 352.0         | 263.0          | 634.0          | 426          | 272                | 668                |

**Peak-flow data used in the analysis:**

Explanation of symbols and codes

-- none

Water   Peak   Peak-flow
