

EXPLANATION

- Assessment tract type – bedded barite**
- Moderate-potential (M) tract with moderate (C) certainty
 - Low-potential (L) tract with low (B) certainty
- Base data**
- USGS study area boundary
 - Proposed withdrawal areas
 - State boundaries
 - County boundaries

Figure 28. Map showing mineral-resource potential for bedded barite-type deposits in the study area for the North-Central Idaho Sagebrush Focal Area.
