

EXPLANATION

- Top of Gunsight limestone
- Top of Home limestone
- Top of North Leon limestone
- Top of Gonzales limestone
- Top of Home Creek limestone
- Top of Ranger limestone
- Base of Ranger limestone
- Top of Meriman limestone
- Top of Adams Branch limestone
- Top of Staff limestone
- Structure contours on top of Ranger limestone  
Contours interval 10 feet  
Datum is mean sea level
- Fault  
U. upthrow D. downthrow
- Axis of anticline
- Axis of syncline
- Base of Permian formation
- Oil wells
- Gas wells
- Oil and gas wells
- Dry holes
- Wells being drilled
- Abandoned oil well

Numbers correspond to those given in well table

MAP OF RANGER OIL FIELD AND VICINITY, EASTLAND COUNTY, TEXAS  
SHOWING OIL AND GAS WELLS, STRUCTURE OF SURFACE ROCKS, AND OUTCROP OF KEY BEDS

Geology by Frank Reeves  
Well locations determined by Frank Reeves, supplemented by data from production maps of various operating and mapping companies
