CONTRIBUTIONS TO ECONOMIC GEOLOGY

(SHORT PAPERS AND PRELIMINARY REPORTS)

1927

PART I.—METALS AND NONMETALS EXCEPT FUELS

G. F. LOUGHLIN AND G. R. MANSFIELD
GEOLOGISTS IN CHARGE

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON
1927

NOTE

The Geological Survey's "Contributions to economic geology" are published in two parts, one including papers on metals and nonmetals except fuels and the other including papers on mineral fuels. As the subtitle indicates, most of the papers in these volumes are of three classes—(1) short papers describing as thoroughly as conditions will permit areas or deposits on which no other report is likely to be prepared; (2) brief notes on mining districts or economic deposits whose examination has been merely incidental to other work; and (3) preliminary reports on economic investigations the results of which are to be published later in more detailed form. Although these papers set forth mainly the practical results of economic investigations, they include brief theoretical discussions and summary statements of conclusions if these appear to require prompt publication.

CONTENTS

[The letters in parentheses preceding the titles are those used to designate the papers for advance publication]

	Page
(A) Manganese-bearing deposits near Lake Crescent and Humptulips, Wash., by J. T. Pardee (published June 14, 1927).....	1
(B) Potash brines in the Great Salt Lake Desert, Utah, by T. B. Nolan (published June 16, 1927).....	25
(C) Organic precipitation of metallic copper, by T. S. Lovering (published June 18, 1927).....	15 45
(D) The brown iron ores of west-middle Tennessee, by E. F. Burchard (published Oct. 20, 1927).....	53
(E) Quicksilver deposits of the Pilot Mountains, Mineral County, Nev., by W. F. Foshag (published Oct. 27, 1927).....	113
(F) The Gilbert district, Nevada, by H. G. Ferguson (published Nov. 4, 1927).....	125
(G) Phosphate rock in the Three Forks-Yellowstone Park region, Montana, by D. D. Condit, E. H. Finch, and J. T. Pardee (published January 9, 1928).....	147
(H) A manganese deposit of Pleistocene age in Bannock County, Idaho, by D. F. Hewett (published January 16, 1928).....	211
Index.....	219

ILLUSTRATIONS

	Page
PLATE 1. Map showing distribution of the manganiferous deposits near Lake Crescent and Humptulips, Wash.....	2
2. Polished surface of ore from the Crescent mine, near Lake Crescent, Wash.....	16
3. Map showing the salinity of the brines underlying the Great Salt Lake Desert, Utah.....	40
4. Map of the western Highland Rim area of Tennessee showing location of iron-ore deposits, mines, quarries, and blast furnaces.....	58
5. A, Fractured chert partly replaced and cemented by limonite; B, Lens of limonite gravel overlying yellowish sand in Van Leer brown iron ore mine, near Iron City, Tenn.....	66
6. A, Stack of Bear Spring furnace at Bear Spring, Tenn.; B, Face of brown iron ore ledge in Swamp Bank of La Grange property, Stribling, Tenn.....	67
7. A, Bell brown iron ore mine, 3½ miles southwest of Cumberland Furnace, Tenn.; B, Cut in Aetna brown iron ore mine, Aetna, Tenn., showing ore overlying white clay.....	96

	Page
PLATE 8. <i>A</i> , Tipple, ore washer, ore bin, and waste flume at Aetna brown iron ore mine of Tennessee Products Corporation, Aetna, Tenn.; <i>B</i> , Coking and by-product plant of Bon Air Chemical Co. at Wrigley, Tenn.....	97
9. Geologic map of the Pilot Mountains, Nev.....	116
10. Map showing extent of western phosphate fields.....	166
11. Columnar sections of the phosphate bed in the Three Forks-Yellowstone Park region, Montana.....	166
12. Map and sections of the Three Forks-Yellowstone Park region, Montana, showing phosphate outcrops.....	In pocket.
FIGURE 1. Vertical cross section of ore body in the Crescent mine, near Lake Crescent, Wash.....	16
2. Vertical cross section of ore body on the Peggy claim, near Lake Crescent, Wash.....	20
3. Map of Stribling, Tenn., and vicinity showing location of iron-ore mines and former blast furnaces.....	81
4. Map of the vicinity of Cumberland Furnace, Tenn., showing relation of ore-bearing land to the topography and to the blast furnace.....	87
5. Map of Aetna, Tenn., and vicinity showing relation of ore deposits to topography.....	94
6. Flow sheet of washer at Aetna mine of Tennessee Products Corporation, Aetna, Tenn.....	97
7. Index map showing the location of the Pilot Mountains, Nev..	114
8. Cinnabar and quartz replacing tuff, Red Wing group, Pilot Mountains, Nev.....	122
9. Map showing location of the Gilbert district, Nev.....	126
10. Geologic map and section of the Gilbert district, Nev.....	127
11. Index map showing location of Three Forks-Yellowstone Park region, Montana.....	149
12. Sketch map of the principal workings, Idaho Manganese Co., Cleveland, Idaho.....	213
