CONTENTS

[The letters in parentheses preceding the titles are those used to designate the papers for advance publication]

	Page
(A) The Gillette coal field, northeastern Wyoming, by C. E. Dobbin and V. H. Barnett (published Aug. 8, 1927).....	1
(B) Geology and oil and gas prospects of northeastern Colorado, by K. F. Mather, James Gilluly, and R. G. Lusk (published January 17, 1928).....	65
(C) Geology and coal resources of the Salina Canyon district, Sevier County, Utah, by E. M. Spieker and A. A. Baker (published January 18, 1928).....	125
(D) Geology and oil and gas possibilities of the Bell Springs district, Carbon County, Wyo., by C. E. Dobbin, H. W. Hoots, and C. H. Dane (published January 19, 1928).....	171
Index.....	199

ILLUSTRATIONS

	Page
PLATE 1. <i>A</i> , Rochelle Hills escarpment, T. 46 N., R. 71 W., Wyoming, formed by strata of Tongue River member of the Fort Union formation rising above lowlands made by the Lebo shale member; <i>B</i> , Topography along Belle Fourche River west of the Rochelle Hills escarpment; <i>C</i> , Shallow lake on the rolling plains west of the Rochelle Hills escarpment.....	10
2. <i>A</i> , Badlands developed in somber-colored clays of the Lebo shale member of the Fort Union formation east of the Rochelle Hills escarpment, northwestern part of T. 39 N., R. 70 W., Wyoming; <i>B</i> , Local unconformity between massive sandstone and cross-bedded sandy shale, south bank of the South Fork of Cheyenne River, sec. 30, T. 41 N., R. 67 W., Wyoming; <i>C</i> , Light-colored ferruginous sandstone and clay of the Tongue River member of the Fort Union formation below the Roland (D) coal bed, north side of Caballo Creek, sec. 32, T. 48 N., R. 70 W., Wyoming.....	10
3. <i>A</i> , Slumping due to burning of Roland (D) coal bed, sec. 36, T. 47 N., R. 71 W., Wyoming; <i>B</i> , Slumping of massive sandstone due to burning of coal bed I, sec. 21, T. 39 N., R. 68 W., Wyoming.....	10
4. <i>A</i> , Outcrop of coal bed B at location 391, NW. $\frac{1}{4}$ sec. 6, T. 45 N., R. 72 W., Wyoming; <i>B</i> , Outcrop of Roland (D) coal bed at location 534, SW. $\frac{1}{4}$ sec. 25, T. 47 N., R. 71 W., Wyoming.....	10
5. Stratigraphic sections in the Gillette coal field, Wyoming, showing position of coal beds.....	10

	Page
PLATE 6. Graphic sections of coal beds in Rs. 66, 67, and 68 W., Gillette coal field, Wyoming.....	In pocket.
7. Graphic sections of coal beds in Rs. 68 and 69 W., Gillette coal field, Wyoming.....	In pocket.
8. Graphic sections of coal beds in Rs. 70 to 74 W., Gillette coal field, Wyoming.....	In pocket.
9. Map of the eastern part of the Gillette coal field, Wyoming, showing outcrops of coal beds.....	In pocket.
10. Map of the western part of the Gillette coal field, Wyoming, showing outcrops of coal beds.....	In pocket.
11. A, Valley of Donkey Creek, looking southeastward toward Minturn, Wyo.; B, View of upland plain, looking northwestward toward windmill near southwest corner of sec. 19, T. 50 N., R. 71 W., Wyoming; C, Peerless mine of Kirby Mutual Coal Co., Minturn district, Wyo.; D, Hill above old Andrew Ditto mine, Minturn district, Wyo.....	52
12. Geologic map of the northwestern part of the Gillette coal field, Wyoming.....	52
13. Geologic and topographic map of the Minturn district, Gillette coal field, Wyoming.....	52
14. Geologic map of part of northeastern Colorado.....	In pocket.
15. A, Asymmetric ridge upheld by gently dipping strata of the Niobrara formation in T. 11 N., R. 67 W., Larimer County, Colo.; B, Burning gas well near Wellington, Colo., July 23, 1924.....	84
16. A, Typical exposure of conglomerate of White River formation (Tertiary) near Dover, Colo.; B, Cross-bedded sandstone of White River formation 1 mile east of Carr, Colo.....	85
17. Structure contour map of Fort Collins-Wellington oil field, Colo.....	102
18. Logs of wells near Wray, Akron, and Padroni, Colo.....	112
19. A, Head of Salina Canyon, Utah, as seen from Pikes Peak Ocean to Ocean Highway near Spring Canyon; B, Cliffs of Castlegate sandstone and underlying Blackhawk formation in Salina Canyon west of Water Hollow.....	144
20. Panoramic views of fault zones of Salina Canyon district, Utah.....	144
21. Coal sections and columnar sections in Salina Canyon district, Utah.....	152
22. Geologic map and structure section of Salina Canyon district, Utah.....	152
23. A, Contrasted types of topography on opposite sides of the Rawlins-Bell Springs fault near Bell Springs, Wyo.; B, Cambrian quartzite near Rawlins, Wyo.....	174
24. A, Tensleep sandstone and overlying formations at Bell Springs, Wyo.; B, Chugwater and overlying formations about 1 mile northeast of Bell Springs, Wyo.....	174
25. A, Thermopolis, Mowry, and Frontier formations in sec. 3, T. 23 N., R. 88 W., Wyo.; B, Rawlins-Bell Springs fault in the SW. $\frac{1}{4}$ sec. 9, T. 23 N., R. 88 W., Wyo.....	174
26. Columnar section of rocks exposed in the Rawlins uplift near Bell Springs, Wyo., and logs of wells drilled on Separation Flats.....	182
27. Geologic map of the Bell Springs district, Wyo.....	190

	Page
FIGURE 1. Map of northeastern Wyoming, showing relation of Gillette coal field to other coal fields.....	2
2. Geologic map of the Gillette coal field, Wyoming.....	13
3. Diagram showing parts of Roland and Smith coal beds represented by laboratory samples from Peerless mine, Gillette coal field, Wyoming.....	16
4. Index map of Colorado.....	66
5. Map showing physiographic provinces of northeastern Colorado.....	72
6. Map showing outline of the Julesburg Basin in Colorado and adjacent States.....	75
7. Variations in thickness of Pierre, Niobrara, and Benton formations along the Front Range, Colo.....	114
8. Variations in thickness of Pierre, Niobrara, and Benton formations eastward from the Front Range, Colo.....	115
9. Map of the part of Salina Canyon, Utah, in T. 22 S., R. 3 E....	159
10. Map of the part of Salina Canyon, Utah, in T. 22 S., R. 2 E....	163
11. Index map of Wyoming showing location of the Bell Springs and Lost Soldier-Ferris districts.....	173
12. Sketch map of the Bell Springs and adjacent districts, Wyoming, showing the position of the top of the Cloverly formation.....	188
