# CONTRIBUTIONS TO ECONOMIC GEOLOGY

(SHORT PAPERS AND PRELIMINARY REPORTS)

1928

PART II.—MINERAL FUELS

H. D. MISER

GEOLOGIST IN CHARGE

OHIO STATE  
UNIVERSITY

UNITED STATES  
GOVERNMENT PRINTING OFFICE  
WASHINGTON : 1929

## NOTE

The Geological Survey's "Contributions to economic geology" are published in two parts, one including papers on metals and nonmetals except fuels and the other including papers on mineral fuels. As the subtitle indicates, most of the papers in these volumes are of three classes—(1) short papers describing as thoroughly as conditions will permit areas or deposits on which no other report is likely to be prepared; (2) brief notes on mining districts or economic deposits whose examination has been merely incidental to other work; and (3) preliminary reports on economic investigations the results of which are to be published later in more detailed form. Although these papers set forth mainly the practical results of economic investigations, they include brief theoretical discussions and summary statements of conclusions if these appear to require prompt publication.

## CONTENTS

[The letters in parentheses preceding the titles are those used to designate the papers for advance publication]

	Page
(A) The Pumpkin Buttes coal field, Wyoming, by C. H. Wegemann, R. W. Howell, and C. E. Dobbin (published Oct. 8, 1928)-----	1
(B) The northward extension of the Sheridan coal field, Big Horn and Rosebud Counties, Mont., by A. A. Baker (published Feb. 12, 1929)-----	15
(C) Geology and oil and gas prospects of part of the San Rafael Swell, Utah, by James Gilluly (published Feb. 14, 1929)-----	69
(D) Geology of the Rock Creek oil field and adjacent areas, Carbon and Albany Counties, Wyo., by C. E. Dobbin, H. W. Hoots, C. H. Dane, and E. T. Hancock (published Feb. 16, 1929)-----	131
(E) Thrust faulting and oil possibilities in the plains adjacent to the Highwood Mountains, Mont., by Frank Reeves (published Mar. 15, 1929)-----	155
Index-----	191

## ILLUSTRATIONS

	Page
PLATE 1. A, B, North side of North Pumpkin Butte, sec. 11, T. 44 N., R. 76 W., Wyo.-----	6
2. Map showing the location of coal outcrops in the Dry Cheyenne coal area of the Pumpkin Buttes coal field, Wyo., and sections of coal beds-----	6
3. Map showing the location of coal outcrops in the Belle Fourche, Divide, and Pumpkin Creek coal areas of the Pumpkin Buttes coal field, Wyo., and sections of coal beds-----	6
4. Section of coal beds in Dry Cheyenne coal area of the Pumpkin Buttes coal field, Wyo.-----	6
5. Section of coal beds in the Belle Fourche, Divide, and Pumpkin Creek coal areas of the Pumpkin Buttes coal field, Wyo.-----	6
6. A, View showing the small relief on the old erosion surface, part of which forms the divide between Squirrel and Spring Creeks in T. 8 S., R. 39 E., Montana; B, View of the broad featureless divide between Pearson Creek and the South Fork of Spring Creek from a point in sec. 34, T. 8 S., R. 39 E., Montana-----	24
7. A, View south across Canyon Creek in sec. 34, T. 6 S., R. 40 E., Montana; B, Silicified stump standing upright in the Roland coal bed in the SW. ¼ sec. 35, T. 8 S., R. 39 E., Montana-----	24
8. A, View north across Fourmile Creek from a point in sec. 21, T. 7 S., R. 41 E., Montana; B, Typical exposure of the light-colored sandstone beneath the Smith coal bed, sec. 22, T. 7 S., R. 39 E., Montana-----	24

	Page
PLATE 9. Diagram showing by townships the stratigraphic position of the coal beds in the northward extension of the Sheridan coal field, Montana, and their correlation with the coal beds that crop out along Tongue River, in Wyoming-----	32
10. Sections of coal beds in T. 6 S., Rs. 38 and 39 E., Montana-----	48
11. Sections of coal beds in T. 6 S., R. 40 E., Montana-----	48
12. Sections of coal beds in T. 6 S., R. 42 E., Montana-----	56
13. Sections of coal beds in T. 6 S., R. 43 E., Montana-----	56
14. Sections of coal beds in T. 7 S., Rs. 38 and 39 E., Montana-----	56
15. Sections of coal beds in Tps. 7 and 7½ S., R. 41 E., Montana-----	56
16. Sections of coal beds in T. 7 S., R. 42 E., Montana-----	56
17. Sections of coal beds in T. 7 S., R. 43 E., Montana-----	56
18. Sections of coal beds in T. 8 S., R. 38 E., Montana-----	64
19. Sections of coal beds in T. 8 S., R. 39 E., Montana-----	64
20. Sections of coal beds in T. 8 S., R. 41 E., Montana-----	64
21. Sections of coal beds in T. 8 S., R. 42 E., Montana-----	64
22. Sections of coal beds in T. 8 S., R. 43 E., Montana-----	64
23. Sections of coal beds in T. 9 S., R. 39 E., Montana-----	64
24. Sections of coal beds in T. 9 S., R. 40 E., Montana-----	64
25. Sections of coal beds in T. 9 S., R. 41 E., Montana-----	64
26. Sections of coal beds in Tps. 9 and 10 S., R. 42 E., Montana-----	64
27. Sections of coal beds in Tps. 9 and 10 S., R. 43 E., Montana-----	64
28. Geologic map of the western part of the northward extension of the Sheridan coal field, Montana-----	In pocket.
29. Geologic map of the eastern part of the northward extension of the Sheridan coal field, Montana-----	In pocket.
30. Map of part of the San Rafael Swell, Utah, showing areal geology and structure of the Shinarump conglomerate-----	In pocket.
31. A, View looking south from the Reef at the mouth of Buckhorn Wash, Utah; B, View looking north from "The Wedge," near the mouth of Buckhorn Wash, Utah-----	72
32. A, Black Box of San Rafael River, Utah; B, View looking northwest from point near head of Black Box; C, Specimen of Moenkopi sandstone from point near head of Black Box, showing casts of salt crystals-----	72
33. A, View looking south from the Reef near Saleratus Creek, Utah; B, The "Red Ledge," between Buckhorn Flat and San Rafael River, Utah; C, Unconformity between Summerville formation and Morrison formation in Cottonwood Springs Wash, Utah-----	72
34. A, Salt Wash sandstone member of Morrison formation on the Woodside anticline, Utah; B, General view looking north along the axis of the Woodside anticline; C, Typical exposure of the Morrison formation near Horn Silver Gulch, Utah-----	72
35. Sections showing lateral variations in the formations exposed in the San Rafael Swell, Utah-----	76
36. A, Medicine Bow anticline from a point in sec. 14, T. 20 N., R. 79 W., Wyoming; B, Rock Creek oil field, Wyoming; C, Cooper Cove dome, from the center of sec. 17, T. 18 N., R. 77 W., Wyoming-----	142
37. A, B, Tensleep sandstone in the Flat Top anticline north of Medicine Bow, Wyo-----	142

	Page
PLATE 38. A, Morrison, Cloverly, and overlying formations on Little Medicine Bow River in the SW. $\frac{1}{4}$ sec. 14, T. 23 N., R. 79 W., Wyoming; B, Sundance, Morrison, and Cloverly formations in Como Ridge east of Medicine Bow, Wyo.-----	142
39. A, Ridge of chalky beds in the Niobrara formation near Ridge, Wyo.; B, Pine Ridge sandstone member of Mesa Verde formation in sec. 4, T. 19 N., R. 78 W., Wyoming-----	142
40. A, B, Pine Ridge sandstone dipping beneath Lewis shale, from T. 20 N., Rs. 76 and 78 W., Wyoming-----	142
41. A, Arlington terrace and Rock Creek valley, from a point 1 mile east of Arlington, Wyo.; B, Conglomerate at the base of the Hanna formation in the SW. $\frac{1}{4}$ sec. 29, T. 19 N., R. 78 W., Wyoming-----	142
42. Representative graphic well logs of the Rock Creek oil field, Wyoming and adjacent areas-----	In pocket.
43. Geologic map and structure sections of the Rock Creek oil field, Wyoming, and adjacent areas-----	In pocket.
44. Map showing areal and structural geology of the Highwood Mountains, Mont., and adjacent plains-----	In pocket.
FIGURE 1. Map of northeastern Wyoming showing relation of the Pumpkin Buttes coal field to other coal fields-----	2
2. Index map showing the location of the northward extension of the Sheridan coal field, Montana-----	16
3. Structure sketch map showing the attitude of the strata in the northward extension of the Sheridan coal field, Montana-----	30
4. Sections of coal beds in T. 5 S., R. 41 E., Montana-----	46
5. Sections of coal beds in T. 5 S., R. 42 E., Montana-----	46
6. Sections of coal beds in T. 6 S., R. 41 E., Montana-----	50
7. Sections of coal beds in T. 7 S., R. 40 E., Montana-----	54
8. Sections of coal beds in T. 8 S., R. 40 E., Montana-----	59
9. Sections of coal beds in T. 9 S., R. 38 E., Montana-----	62
10. Index map showing location of the San Rafael Swell, Utah-----	70
11. Map of southern Wyoming showing the relation of the Rock Creek oil field and adjacent areas to other coal and oil and gas fields-----	132
12. Cross sections of Medicine Bow anticline, Tps. 20 and 21 N., R. 79 W., Wyoming, showing position of traces of axial plane-----	151
13. Index map of Montana showing location of area mapped adjacent to the Highwood Mountains-----	156
14. Diagrammatic cross sections showing surface relations of formations adjacent to thrust faults-----	169
15. Diagrammatic map and sections showing thrust faults ending in plunging folds-----	171
16. Interpretation of subsurface structure between wells 1 and 2 on Vimy Ridge, T. 25 N., R. 9 E., Mont.-----	177
17. Interpretation of subsurface structure transverse to the thrust fault at well 5, T. 22 N., R. 13 E., Mont.-----	178
18. Composite cross section showing the undisturbed attitude of the Kootenai formation where it has been penetrated by wells drilled adjacent to thrust faults near the Highwood Mountains, Mont-----	179
19. Interpretation of subsurface structure transverse to the thrust fault at the location of the Ohio Co.'s wells on Sand Coulee, T. 25 N., R. 17 E., Mont-----	182
