

UNITED STATES DEPARTMENT OF THE INTERIOR
RAY LYMAN WILBUR, Secretary
GEOLOGICAL SURVEY
GEORGE OTIS SMITH, Director

Bulletin 821

CONTRIBUTIONS
TO ECONOMIC GEOLOGY

(SHORT PAPERS AND PRELIMINARY REPORTS)

1930

PART I

METALS AND NONMETALS
EXCEPT FUELS

G. F. LOUGHLIN and E. F. BURCHARD
GEOLOGISTS IN CHARGE

CANCELLED.

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON : 1931

CONTENTS

[The letters in parentheses preceding the titles are those used to designate the papers for advance publication]

	Page
(A) A graphic history of metal mining in Idaho, by C. P. Ross.....	1
(B) A geologic study of the Madden Dam project, Alhajuela, Canal Zone, by Frank Reeves and C. P. Ross.....	11
(C) Iron ore on Canyon Creek, Fort Apache Indian Reservation, Arizona, by E. F. Burchard.....	51
Index.....	77

ILLUSTRATIONS

	Page
PLATE 1. Gold production in Idaho.....	10
2. Total metal production of Idaho and of Shoshone County and production of metals other than gold.....	10
3. Metal production of principal producing counties in Idaho.....	10
4. Map of the Canal Zone, showing position of the proposed Madden Reservoir.....	14
5. General geologic map of the proposed Madden Reservoir, near Alhajuela, Canal Zone.....	In pocket. <i>box</i>
6. Geologic map and cross sections of area in the vicinity of dam sites 1 and 5, near Alhajuela, Canal Zone.....	In pocket. <i>box</i>
7. Cliff on the north side of the dike ridge above dam site 1.....	14
8. The right bank of the Rio Chagres, looking down the Calle Larga stretch.....	14
9. Characteristic exposure of the Emperador limestone on the Rio Chagres near the third turn above the upper end of Calle Larga.....	14
10. Closer view on the Rio Chagres at same locality as Plate 8.....	14
11. Outfit used in tests of the solubility of pieces of core from the 2-inch diamond-drill holes near diamond-drill hole L-1.....	22
12. Diamond drill sinking hole L-1 on west side of dam site 1.....	22
13. Profile along crests extending south and east along the ridge above the Quebrada Madronal to and across dam site 1, thence along the dike ridge and the ridge above the Rio Azote Caballo.....	38
14. A, Chediski Mountain, on right bank of Canyon Creek oppo- site mouth of Willow Creek, Ariz.; B, Cliffs formed by Chediski white sandstone member of Troy quartzite on left bank of Canyon Creek, opposite Chediski Mountain.....	56
15. A, Canyon Creek at mouth of Miners Gulch; B, Dripping Spring quartzite on right bank of Canyon Creek below Bear Spring Canyon.....	56

	Page
PLATE 16. <i>A</i> , The "Pyramids," Canyon Creek; <i>B</i> , Polished surface of banded chert partly replaced by iron oxide.....	56
17. <i>A</i> , Prospect in bed of iron ore on steep hillside at locality 2, Canyon Creek; <i>B</i> , Prospect in bed of iron ore at locality 4....	56
18. Panorama from west side of Canyon Creek at Bear Spring Canyon.....	56
FIGURE 1. Altitude of water in drill holes on Madden Dam project, Canal Zone, from date of completion of holes to March 12, 1929..	20
2. Profile across dike ridge on Madden Dam project.....	21
3. Results of solution tests on cores of rocks of Madden Dam project.....	25
4. Water table in wells on dike ridge during period of pressure tests on wells 1, 2, 3, and 7, Madden Dam project.....	27
5. Profile of dam site 1, showing bedrock profile and diamond-drill holes.....	29
6. Index map showing location of iron-ore area on Canyon Creek, Ariz.....	52
7. Map of Canyon Creek at Bear Spring Canyon, showing outcrop of iron-ore bed.....	61
8. Section along Canyon Creek near Bear Spring Canyon.....	62
9. Map of Canyon Creek at Willow Creek, showing outcrop of iron-ore bed.....	71
