BIBLIOGRAPHY OF NORTH AMERICAN GEOLOGY

1929-1939

By EMMA MERTINS THOM

INTRODUCTION

The bibliography of North American geology, including paleontology, petrology, and mineralogy, for the years 1929-1939, lists publications on the geology of the Continent of North America and adjacent islands and on Panama, the Hawaiian Islands, and the Island of Guam. It includes textbooks and papers of a general character by American authors, but not papers by foreign authors, except those that appear in American publications.

The papers, with full title and medium of publication, are listed under the names of their authors, which are arranged in alphabetic order. The author list is followed by an index to the literature cited.

The bibliography of North American geology to the end of 1928 is contained in the following bulletins of the United States Geological Survey: 746 and 747 (1785-1918) and 823 (1919-28), by John M. Nickles. In this volume have been cumulated Bulletins 834 (1929-30) and 858 (1931-32), by John M. Nickles, and 869 (1933-34) and 892 (1935-36), by Emma Mertins Thom.

The bibliography for 1937, 1938, and 1939, which is included in the present bulletin, will not be published separately.

For valued help in preparing the matter for the press, the compiler is indebted to Miss Helen M. Duncan and Miss Barbara P. Gordon.

 Amos sheet, Abitibi County, Quebec. Geology by Ludlow J. Weeks. 1933-34. Map 327A. Scale 1: 63,360, or 1 inch to 1 mile. Pub. 2403. 1935.
 Amulet area, Duprat, Dufresnoy, Rouyn, and Beauchastel townships, Abitibi and Témiscamingue Counties, Quebec. Geology by Morely Evans Wilson, 1935. Map 454A. Scale 1:9,600, or 1 inch to 800 feet. 1939.
 Ashcroft sheet, east half, Kamloops district, British Columbia, Map 407A. Scale, 1:253,440 or 1 inch to 4 miles. 1938.
 Battleford sheet east half, Saskatchewan. Map 491A. Scale 1:253,440, or 1 inch to 4 miles. 1939.

Canada Geological Survey—Continued.

1. Geological maps as follows—Continued.

- Battleford sheet, west half, Saskatchewan. Map 492A. Scale 1:253,440, or 1 inch to 4 miles. 1939
- Bearberry sheet (west half), west of fifth meridian, Alberta. Map 404A. Scale, 1:63,360, or 1 inch to 1 mile. 1937.
- Berens River sheet, east half, Manitoba. Geology by Ashton William Johnston, 1936. Map 426A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Berens River sheet, west half, Manitoba. Geology by Ashton William Johnston, 1936. Map 427A. Scale, 1:253,440, or 1 inch to 4 miles. 1938.
- Bras D'Or sheet, Cape Breton and Victoria Counties, Nova Scotia. Geology by Walter Andrew Bell, 1921, 1930, 1931; and Edwin Alexander Goranson, 1930, 1931. Map 359A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Cadillac area, Cadillac Township, Quebec. Geology by Henry Cecil Gunning, 1934. Map 399A. Scale, 1:18,000, or 1 inch to 1,500 feet. 1938.
- Part of Cadillac belt, Cadillac Township, Quebec. Geology by Henry Cecil Gunning, 1934. Map 400A. Scale, 1:7,200, or 1 inch to 600 feet. 1938.
- Cadwallader Creek area, Lillooet district, British Columbia. Map 324A. Scale 1:12,000, or 1 inch to 1,000 feet. Pub. 2386, 1935.
- Cadwallader Creek area (Bridge River), Lillooet district, British Columbia. Map 349A. Scale 1:31,680, or 1 inch to $\frac{1}{2}$ mile. 1936.
- Canmore area, north portion, Alberta. Geology by Bertram Reid MacKay, 1934. Map 322A. Scale 1:9,600, or 1 inch to 800 feet. Pub. 2382, 1935. Sections supplementing Map 322A, geology by Bertram Reid MacKay, 1934. Pub. 2384, 1935.
- Canmore area, south portion, Alberta. Geology by Bertram Reid MacKay, 1934. Map 323A. Scale 1:9,600, or 1 inch to 800 feet. Pub. 2383, 1935. Sections supplementing Map 323A, geology by Bertram Reid MacKay, 1934. Pub. 2385, 1935.
- Carmacks sheet, Yukon Territory. Geology by Hugh Samuel Bostock, 1932-34. Map 340A. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Carroll Lake sheet, west half, Manitoba-Ontario. Geology by Ashton William Johnston, 1936. Map 428A. Scale, 1:253,440, or 1 inch to 4 miles. 1939.
- Chaleur Bay area, Quebec and New Brunswick. Map 330A. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Chibougamau sheet, Abitibi County, Quebec. Geology by James Buckland Mawdsley, 1930, and George William Hallet Norman, 1934. Map 304A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2356, 1935.
- Chibougamau sheet, east half, Abitibi Territory, Quebec. Geology by James Buckland Mawdsley and George William Hallet Norman, 1935. Map 397A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Chibougamau sheet, west half, Abitibi Territory, Quebec. Geology by Joseph Arlington Retty and George William Hallet Norman, 1935. Map 398A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Copper Cliff sheet, Sudbury district, Ontario. Geology by William Henry Collins, and others, 1916-17, 1928, 1930, 1931-34; Elwood S. Moore, 1929, Bruce Clark Freeman, 1931. Map 292A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Cow River area, Sudbury and Algoma districts, Ontario. Geology by Norman B. Keevil, 1935. Map 366A. Scale 1:126,720, or 1 inch to 2 miles. 1936.
- Cranbrook sheet, Kootenay district, British Columbia. Geology by Clive Elmore Cairnes, 1932, and Harrington Molesworth Anthony Rice, 1935. Map 396A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Deer Lake sheet, west half, Manitoba-Ontario. Geology by Ashton William Johnston, 1936. Map 425A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Desbouches sheet (east half), Abitibi County, Quebec. Geology by F. T. Denis, 1935. Map 353A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Desbouches sheet (west half), Abitibi County, Quebec. Geology by F. T. Denis, 1935. Map 352A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Desmeloizes sheet, Abitibi County, Quebec. Geology by James Buckland Mawdsley. Map 284A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2310, 1933.
- Dufault area, Dufresnoy and Rouyn townships. Abitibi and Témiscamingue Counties, Quebec. Geology by Morley Evans Wilson, 1934. Map 457A. Scale, 1:9,600, or 1 inch to 800 feet. 1939.
- Duparquet sheet, Abitibi and Témiscamingue Counties, Quebec. Map 281A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2295, 1933.
- Duvernay (east half), Abitibi County, Quebec. Geology by Ludlow J. Weeks, 1936-37. Map 529A. Scale 1:63,360, or 1 inch to 1 mile. 1930.
- Duvernay (west half), Abitibi County, Quebec. Geology by Ludlow J. Weeks, 1936-37. Map 530A. Scale 1:63,360, or 1 inch to 1 mile. 1939.
- Eagle-McDame area, Cassiar district, British Columbia. Geology by Forrest Alexander Kerr, 1935, and George Hanson and Duncan Anderson McNaughton, 1935. Map 381A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Edmonton, Alberta. Geology by Ralph Leslie Rutherford, 1935 and 1936. Map 506A. Scale, 1:253,440, or 1 inch to 4 miles. 1939.
- Elbow-Morton area, Manitoba. Geology by Clifford Howard Stockwell, 1934. Map 321A. Scale, 1:126,720, or 1 inch to 2 miles. Pub. 2381, 1935.
- Escuminac sheet, Bonaventure County, Quebec. Geology by Waldorf Vivian Howard, 1924-25; Edward Martin Kindle, 1925; Frederick James Alcock, 1928-29. Map 266A. Scale 1:63,360, or 1 inch to 1 mile. 1936.
- Espanola sheet, Sudbury district, Ontario. Geology by William Henry Collins, 1916-17, 1925-28, Terence Thomas Quirk, 1915. Map 291A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Fallentimber sheet (east half), west of fifth meridian, Alberta. Map 405A. Scale, 1:63,360, or 1 inch to 1 mile. 1937.
- Fallentimber (east half), west of fifth meridian, Alberta. Geology by Bertram Reid MacKay, 1937. Map 548A. Scale, 1:63,360, or 1 inch to 1 mile. 1939.
- Fallentimber sheet (west half), west of fifth meridian, Alberta. Map 406A. Scale 1:63,360, or 1 inch to 1 mile. 1937.
- Fallentimber (west half), west of fifth meridian, Alberta. Geology by Bertram Reid MacKay, 1937. Map 549A. Scale, 1:63,360, or 1 inch to 1 mile. 1939.
- Fond-Du-Lac sheet, northern Saskatchewan. Geology by Frederick James Alcock, 1935. Map 364A. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Fort Pitt sheet (east half), Saskatchewan. Map. 489A. Scale 1:253,440, or 1 inch to 4 miles. 1939.

Canada Geological Survey—Continued.

1. Geological maps as follows—Continued.

- Fort Pitt sheet (west half), Saskatchewan. Map 490A. Scale 1:253,440, or 1 inch to 1 mile. 1939.
- Foster Lake sheet (east half), northern Saskatchewan. Geology by Robert Connell McMurchy. Map 433A. Scale, 1:253,440, or 1 inch to 4 miles. 1938.
- Foster Lake sheet (west half), northern Saskatchewan. Geology by Robert Connell McMurchy. Map 434A. Scale, 1:253,440, or 1 inch to 4 miles. 1938.
- Glace Bay sheet, Cape Breton County, Nova Scotia. Geology by Albert Orion Hayes, 1917-19; Walter Andrew Bell, 1921, 1930; and Edwin Alexander Goranson, 1930, 1931. Map 362A. Scale, 1:63,360, or 1 inch to 1 mile. 1938.
- Goldfields area, northern Saskatchewan. Geology by Frederick James Alcock, 1935. Map 339A. Scale 1:63,360, or 1 inch to 1 mile. 1936.
- Granville Lake sheet, east half, Manitoba. Geology by James Fenwick Henderson, 1932; George William Hallel Norman, 1933; D. L. Downie, 1935. Map 344A. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Granville Lake sheet, west half, Manitoba. Geology by D. L. Downie, 1935. Maps 343A, 344A. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Great Bear Lake (McTavish Arm), between Richardson Island and Hornby Bay, District of Mackenzie, Northwest Territories. Geology by Desmond Fife Kidd. Map 296A. Scale 1:253,440, or 1 inch to 4 miles. Pub. 2328, 1933.
- Great Slave Lake, eastern portion, district of Mackenzie, Northwest Territories. Geology by Clifford Howard Stockwell, 1929, 1930, 1931. Maps 377A, 378A. Scale 1:253,440, or 1 inch to 4 miles. 1936; reviewed in Canadian Min. Jour., vol. 58, no. 4, p. 206, April 1937.
- Guliel Lake sheet, Témiscamingue County, Quebec. Maps 385A, 386A. Scale 1:63,360, or 1 inch to 1 mile. 1936.
- Guliel Lake sheet, east half, Témiscamingue County, Quebec. Geology by James Fenwick Henderson, 1935. Map 390A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Guliel Lake sheet, west half, Témiscamingue County, Quebec. Geology by James Fenwick Henderson, 1935. Map 389A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Gun Lake area, Bridge River, Lillooet district, British Columbia. Map 348A. Scale 1:31,680, or 1 inch to $\frac{1}{4}$ mile. 1936.
- Hardisty, Alberta. Geology by Percival Sidney Warren and George Sherwood Hume, 1935 and 1936. Map 502A. Scale 1:253,440, or 1 inch to 4 miles. 1939.
- Hearst-Kapuskasing area, east sheet, Cochrane and Algoma districts, Ontario. Geology by Ludlow J. Weeks, 1935, 1936. Map 411A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Hearst-Kapuskasing area, west sheet, Cochrane and Algoma districts, Ontario. Geology by Ludlow J. Weeks, 1935, 1936. Map 412A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Hecia sheet, east half, Manitoba. Geology by Ashton William Johnston, 1936. Map 429A. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Herb Lake area, centre, north and south sheets, Manitoba. Geology by Clifford Howard Stockwell, 1935. Maps 374A, 375A, 376A. Scale 1:12,000, or 1 inch to 1,000 feet. 1936; reviewed in Canadian Min. Jour., vol. 58, no. 7, pp. 376-377, July 1937.
- Kejlmikujik Lake sheet, east half, Annapolis and Queens Counties, Nova Scotia. Geology by Eugene Rodolphe Faribault, P. Armstrong, 1935, and James Tinley Wilson, 1936. Map 437A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Kejlmikujik Lake sheet, west half, Digby, Annapolis, and Queens Counties, Nova Scotia. Geology by Eugene Rodolphe Faribault, P. Armstrong, 1935, James Tinley Wilson, 1936. Map 438A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Kettle River sheet, west half, Similkameen and Osoyoos districts, British Columbia. Map 420-A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Kinojevis sheet, Témiscamingue and Abitibi Counties, Quebec. Geology by William Fleming James, James Buckland Mawdsley, and Arthur Hamilton Lang. Map 306A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2359, 1935.
- Laberge sheet, Yukon Territory. Geology by William Egbert Cockfield (in charge), 1929-30; Everett John Lees, 1929-31; and Hugh Samuel Bostock, 1934. Map 372A. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Lac La-Ronge sheet, east and west halves, Saskatchewan. Geology by D. M. E. McLarty, 1935. Maps 357A, 358A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Lake Ainslie sheet, Inverness County, Nova Scotia. Geology by George William Hallel Norman. Map 282A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2302, 1933.
- Lake Etchemin area, Dorchester and Beauce Counties, Quebec. Geology by Carl Tolman. Map 395A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Lake Huron sheet, Ontario. Geological compilation by William Henry Collins. Map 155A (3d ed.). Scale 1:506,880, or 1 inch to 8 miles. Pub. 1553, 1933.
- Lake Nipigon sheet, Ontario. Map 308A. Scale 1:506,880, or 1 inch to 8 miles. Pub. 3264, 1935.
- Little Long Lac area, Thunder Bay District, Ontario. Geology by Thomas Leslie Tanton. Map 313A. Scale 1:126,720, or 1 inch to 2 miles. Pub. 2369, 1934.
- Liverpool sheet, east half, Queens and Lunenburg Counties, Nova Scotia. Geology by Eugene Rodolphe Faribault, P. Armstrong, 1935, and James Tinley Wilson, 1936. Map 439A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Liverpool sheet, west half, Queens County, Nova Scotia. Geology by Eugene Rodolphe Faribault, P. Armstrong, 1935, and James Tinley Wilson, 1936. Map 440A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Macamic sheet, Abitibi County, Quebec. Geology by O. L. Backman. Map 298A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2336, 1934.
- Malaga Lake sheet, east half, Queens and Lunenburg Counties, Nova Scotia. Geology by Eugene Rodolphe Faribault, P. Armstrong, 1935, and James Tinley Wilson, 1936. Map 435A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Malaga Lake sheet, west half, Queens and Lunenburg Counties, Nova Scotia. Geology by Eugene Rodolphe Faribault, P. Armstrong, 1935, and James Tinley Wilson, 1936. Map 436A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Manitoulin Island, Manitoulin district, Ontario. Geology by Merton Yarwood Williams, 1935. Map 351A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Megantio sheet (west half), Frontenac County, Quebec. Geology by Clifford Symington Lord, 1935. Map 379A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Mine Center area, Rainy River district, Ontario. Geology by Thomas Leslie Tanton. Map 334A. Scale 1:31,680, or 1 inch to $\frac{1}{4}$ mile. 1936.

Canada Geological Survey—Continued.

1. Geological maps as follows—Continued.

- Mudjatik Haultain area, northeast quarter, Saskatchewan. Geology by Frederick James Alcock, 1934. Map 318A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2378, 1935.
- Mudjatik-Haultain area, northwest quarter, Saskatchewan. Geology by Frederick James Alcock, 1934. Map 317A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2377, 1935.
- Mudjatik-Haultain area, southeast quarter, Saskatchewan. Geology by Frederick James Alcock, 1934. Map 320A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2380, 1935.
- Mudjatik-Haultain area, southwest quarter, Saskatchewan. Geology by Frederick James Alcock, 1934. Map 319A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2379, 1935.
- Newbec area, Dufresnoy township, Abitibi County, Quebec. Geology by Morley Evans Wilson, 1932, 1933. Map 456A. Scale 1:9,600, or 1 inch to 800 feet. 1939.
- Nonacho Lake, District of Mackenzie, Northwest Territories. Geology by James Fenwick Henderson, 1936. Map 526A. Scale 1:253,440, or 1 inch to 4 miles. 1939.
- Norway House sheet, east half, Manitoba. Geology by Ashton William Johnston, 1936. Map 423A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Norway House sheet, west half, Manitoba. Geology by Ashton William Johnston. 1936. Map 424A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Nova Scotia sheet. Map 39A (2d ed.). Scale 1:506,880, or 1 inch to 8 miles. Pub. 1185, 1927.
- Ogilvie sheet, Yukon Territory. Map 373A. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Oliver Lake, northern Saskatchewan. Geology by Frederick James Alcock, 1937. Map 528A. Scale 1:253,440, or 1 inch to 4 miles. 1939.
- Opemisca sheet, east half, Abitibi Territory, Quebec. Geology by George William Hallet Norman, 1936. Map 401A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Ottawa sheet, east half, Carleton and Hull Counties, Ontario and Quebec. Geology by Alice Evelyn Wilson, 1935. Map 413A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Ottawa sheet, west half, Carleton and Hull Counties, Ontario and Quebec. Geology by Alice Evelyn Wilson, 1935. Map 414A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Oxford House sheet, Manitoba. Geology by John Frank Wright. Map 305A (provisional ed.). Scale 1:253,440, or 1 inch to 4 miles. Pub. 2357, 1934.
- Oxford sheet, east half, Cumberland and Colchester Counties, Nova Scotia. Geology by George William Hallet Norman, 1932, and Walter Andrew Bell, 1934. Map 409A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Oxford sheet, west half, Cumberland and Colchester Counties, Nova Scotia. Geology by George William Hallet Norman, 1932, and Walter Andrew Bell, 1934. Map 410A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Palmarolle sheet, Abitibi County, Quebec. Geology by Basil Scott Whyte Buffam, 1925, 1926, revised by Arthur Hamilton Lang, 1932. Map 293A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2325, 1934.
- Papaonga area, Kenora district, Patricia portion, Ontario. Geology by Willis Isaac Wright and the Ontario Department of Mines. Map 347A. Scale 1:126,720, or 1 inch to 2 miles. 1936.
- The Pas sheet, Manitoba and Saskatchewan. Geology by John Frank Wright. Map 268A. Scale 1:506,880, or 1 inch to 8 miles. Pub. 2272, 1934.
- Pekisko Hills area, Alberta. Canada Geol. Survey Paper 37-12, geol. map, no text, 1937.
- Pigeon River area, Thunder Bay district, Ontario. Geology by Thomas Leslie Tanton, 1935. Maps 354A, 355A, 356A. Scale 1:63,360, or 1 inch to 1 mile. 1936; reviewed in Canadian Min. Jour., vol. 58, no. 4, p. 204, April 1937.
- Plaster Rock sheets, Victoria County, New Brunswick. Maps 391A, 392A. Scale 1:63,360 or 1 inch to 1 mile. 1936.
- Portland Canal area, Cassiar district, British Columbia. Geology by Richard George McConnell, John Johnston O'Neill, Stuart James Schofield and G. George Hanson. Map 307A. Scale 1:253,440, or 1 inch to 4 miles. Pub. 2362, 1935.
- Prince Rupert sheet, British Columbia. Map 278A. Scale 1:506,880, or 1 inch to 8 miles. Pub. 2286, 1933.
- Quesnel Forks sheet. Cariboo District, British Columbia. Geology by John Fortune Walker and William Egbert Cockfield. Map 294A (provisional ed.). Scale 1:63,360, or 1 inch to 1 mile. Pub. 2326, 1933.
- Quetico sheet, east half, Thunder Bay and Rainy River districts, Ontario. Geology by Thomas Leslie Tanton, 1928-29, 1931, 1936. Map 432A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Rae-Great Bear Lake area, between Faber Lake and Hottah Lake, District of Mackenzie, Northwest Territories. Geology by Desmond Fife Kidd, 1934. Map 332A, center sheet. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Rae-Great Bear Lake area, between Hottah Lake and Richardson Island, District of Mackenzie, Northwest Territories. Geology by Desmond Fife Kidd, 1934. Map 333A, north sheet. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Rae-Great Bear Lake area, between Rae and Faber Lake, District of Mackenzie, Northwest Territories. Geology by Desmond Fife Kidd, 1934. Map 331A, south sheet. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Red Deer, Alberta. Geology by Ralph Leslie Rutherford, 1935 and 1936. Map 504A. Scale 1:253,440, or 1 inch to 4 miles. 1939.
- Regina sheet, Saskatchewan. Geology by Frank Harris McLearn, 1927-1931, and Percival Sidney Warren, 1928-1930. Map 267A. Scale 1:506,880, or 1 inch to 8 miles. Pub. 2271, 1935. Sections supplementing Map 267A, Regina sheet, Saskatchewan, Pub. 2341, 1935.
- Ribstone Creek, Alberta. Geology by Percival Sidney Warren and George Sherwood Hume, 1935 and 1936. Map 501A. Scale 1:253,440, or 1 inch to 4 miles. 1939.
- Rouyn area, Rouyn Township, Temiscamingue County, Quebec. Geology by Morley Evans Wilson, 1934, 1935. Map 453A. Scale 1:9,600, or 1 inch to 800 feet. 1939.
- Rouyn-Bell River area, Abitibi and Temiscamingue Counties, Quebec. Map 328A. Scale 1:253,440, or 1 inch to 4 miles. Pub. 2404, 1936.
- Rouyn-Harricana area, Abitibi and Temiscamingue Counties, Quebec. Map 271A. Scale 1:253,440, or 1 inch to 4 miles. Pub. 2275, 1931.
- Rush Lake sheet, Sudbury District, Ontario. Geology by Harold MacColl Bannerman. Map 200A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2321, 1933.
- Seal River area, northern Manitoba. Geology by Ashton William Johnston, 1935. Maps 345A, 346A. Scale 1:760,320, or 1 inch to 12 miles. 1936.
- Sevogle Rivers area, Northumberland County, New Brunswick. Geology by Eugene Wesley Shaw, 1935. Map 382A. Scale 1:126,720, or 1 inch to 2 miles. 1938.

Canada Geological Survey—Continued.

1. Geological maps as follows—Continued.

- Shebandowan area, Thunder Bay district, Ontario. Geology by Thomas Leslie Tanton, 1928-29, 1931. Map 338A (Provisional edition). Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Sherbrooke Lake, Lunenburg and Kings Counties, Nova Scotia. Geology by Eugene Rodolphe Faribault, P. Armstrong, 1935, and James Tinley Wilson, 1936. Map 531A. Scale 1:63,360, or 1 inch to 1 mile. 1939.
- Springfield, Annapolis, Lunenburg, Kings, and Queens Counties, Nova Scotia. Geology by Eugene Rodolphe Faribault, P. Armstrong (1935), and James Tinley Wilson, 1936. Map 532A. Scale 1:63,360, or 1 inch to 1 mile. 1939.
- Springhill sheet, Cumberland and Colchester Counties, Nova Scotia. Geology by Forrest Alexander Kerr, 1924; Islwyn Winwaloe Jones, 1928; Walter Andrew Bell, 1936. Map 357A. Scale 1:63,360, or 1 inch to 1 mile, 1938.
- Stettler, Alberta. Geology by Ralph Leslie Rutherford, 1935 and 1936. Map 503A. Scale 1:253,440, or 1 inch to 4 miles. 1939.
- Stikine River area, center sheet, Cassiar district, British Columbia. Geology by Forrest Alexander Kerr, 1926-29; topography by Forrest Alexander Kerr and International Boundary Commission. Map 310A. Scale 1:126,720, or 1 inch to 2 miles. Pub. 2366, 1935.
- Stikine River area, north sheet. Cassiar district, British Columbia. Geology by Forrest Alexander Kerr, 1926-29; topography by Forrest Alexander Kerr and J. Davidson. Map 309A. Scale 1:126,720, or 1 inch to 2 miles. Pub. 2365, 1935.
- Stikine River area, south sheet, Cassiar district, British Columbia. Geology by Forrest Alexander Kerr, 1926-29; topography by Forrest Alexander Kerr and International Boundary Commission. Map 311A. Scale 1:126,720, or 1 inch to 2 miles. Pub. 2367, 1935.
- Stony Rapids sheet (west half), northern Saskatchewan. Geology by Frederick James Alcock, 1935. Map 365A. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Stull Lake sheet, east half, Manitoba and Ontario. Geology by D. L. Downie, 1936 and Ontario Dept. Mines. Map 451A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Stull Lake sheet, west half, Manitoba and Ontario. Geology by D. L. Downie, 1936 and Ontario Dept. Mines. Map 452A. Scale 1:253,440, or 1 inch to 4 miles. 1938.
- Sturgeon River area, Thunder Bay district, Ontario. Geology by Thomas Leslie Tanton. Map 312A. Scale 1:126,720, or 1 inch to 2 miles. 1934.
- Sydney sheet (east half), Cape Breton County, Nova Scotia. Geology by Albert Orion Hayes, 1917-19; Walter Andrew Bell, 1921, 1930, 1931; and Edwin Alexander Goranson, 1930, 1931. Map 361A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Sydney sheet (west half), Cape Breton and Victoria Counties, Nova Scotia. Geology by Walter Andrew Bell and Edwin Alexander Goranson, 1930, 1931. Map 360A. Scale 1:63,360 or 1 inch to 1 mile. 1938.
- Tahta-Morice area, coast district, British Columbia. Geology by Mathew Sherwood Hedley, 1935. Map 367A. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Taltson Lake, District of Mackenzie, Northwest Territories. Geology by James Fenwick Henderson, 1936. Map 625A. Scale 1:253,440, or 1 inch to 4 miles. 1939.
- Taschereau sheet, Abitibi County, Quebec. Geology by Basil Scott Whyte Buffam, 1925, 1926, revised by Arthur Hamilton Lang, 1932. Map 285A. Scale 1:63,360, or 1 inch to 1 mile. Pub. 2311, 1934.
- Tazin Lake sheet, northern Saskatchewan. Geology by Frederick James Alcock, 1935. Map 363A. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Teslin-Quilet Lake area, Yukon Territory. Geology by Everett John Lees. Map 350A. Scale 1:253,440, or 1 inch to 4 miles. 1936.
- Thunder Bay silver area, Thunder Bay district, Ontario. Map 276A. Scale 1:253,440 or 1 inch to 4 miles. Pub. 2282, 1931.
- Tofield, Alberta. Geology by Ralph Leslie Rutherford, 1935 and 1936. Map 505A. Scale 1:253,440, or 1 inch to 4 miles. 1939.
- Tuadook Lake sheet, west half, Victoria and York Counties, New Brunswick. Map 393A. Scale 1:63,360, or 1 inch to 1 mile. 1936.
- Vancouver sheet, British Columbia. Map 196A. Scale 1:506,880, or 1 inch to 8 miles. Pub. 2138, 1928.
- Ville-Marie sheets, Témiscamingue County, Quebec. Maps 384A, 383A. Scale 1:63,360, or 1 inch to 1 mile. 1936.
- Ville-Marie sheet, east half, Témiscamingue County, Quebec. Geology by James Fenwick Henderson, 1935. Map 388A. Scale 1:63,360 or 1 inch to 1 mile. 1938.
- Ville-Marie sheet, west half, Témiscamingue County, Quebec. Geology by James Fenwick Henderson, 1935. Map 387A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Waite area, Duprat and Dufresnoy Townships, Abitibi County, Quebec. Geology by Morley Evans Wilson, 1932, 1933. Map 455A. Scale 1:9,600, or 1 inch to 800 feet. 1939.
- Wapus Lake, northern Saskatchewan. Geology by Frederick James Alcock, 1937. Map 527A. Scale 1:253,440, or 1 inch to 4 miles. 1939.
- Willow River sheet, east half, Cariboo district, British Columbia. Geology by George Hanson, 1933 and 1934. Map 336A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Willow River sheet, west half, Caribou district, British Columbia. Geology by George Hanson, 1933 and 1934. Map 335A. Scale 1:63,360, or 1 inch to 1 mile. 1938.
- Woodstock area, Carleton and York Counties, New Brunswick. Geology by J. F. Caley. Map 380A. Scale 1:126,720, or 1 inch to 2 miles. 1938.
