

945
Q E 75
P. 9
C. 2

- EXPLANATION**
-  Monzonite porphyry
 -  Granite
 -  Serpentine
 -  Metamorphic rocks, including some granite
 -  Chromite deposit
 -  Geologic boundaries—dashed where inferred
 -  Limit of outcrop
 -  Limit of magnetometer surveys made in September 1942, by G.R. Mac Carthy
 -  U. S. Vanadium Corporation coordinates
 -  Geology and topography adapted from map by U. S. Vanadium Corporation

100 0 500 Feet

Contour interval 50 feet
