

EXPLANATION

- Dunite
- Lherzolite
- Gneissic diorite
- Pegmatite
- Chromite ore
- Pitch of linear structure in chromite
- Pitch of joint prism
- Open cut or pit
- Claim or section corner located
- Area mapped in detail

- Contact, dashed where approximate, dotted where covered
- Fault, dashed where approximately located
- Strike and dip of chromite layers
- Strike and dip of foliation
- Strike and dip of joint
