

EXPLANATION

- Aluminous lateritic soil area (Thickness in feet shown by isopach line, inferred thickness by broken isopach line)
- Limestone (Eocene)
- Limestone-soil contact, dashed where inferred
- Canyon (Cañada)
- Stream (Quebrada)
- Trail
- Sinkhole
- Auger hole (Upper figure, hole number, lower figure, depth in feet)
- Limestone sample
- Station with aneroid elevation in feet
- Shelter
- Number refers to deposits described in text
