GEOLOGIC PLAN, NORTH NONPAREIL, MINE

EXPLANATION

Graph, shale, fault, sandstone lenses

Shale, interbedded with sandstone and shale

Sandstone, massive, fine-grained, argillaceous

Tuff and coarse-grained tuffaceous sandstone

Contact, showing dip, dashed

Strike of vertical surface

Fault, showing dip, and plunge of strata, dashed

Vertical fault

Shale core

Fault block

Strike and dip of beds

Strike and dip of faults

Contact of shaft

Hole of mine or mine

Inclined workings, shown as point down of 3-foot intervals

Lip of workings

Drag fault

Diamond drill holes, showing indication

Scale-tuffaceous sandstone contact of 100 feet

Geology by A. C. Watters, 1942, civil data added by R. C. Brown, 1944
