

- EXPLANATION**
- Zoned pegmatite, showing dip of contact
 - Homogeneous pegmatite, showing dip of contact
 - Biotite granite, showing dip of contact
Foliation symbols in bodies of granite represent outcrops of schist top small to show on map
 - Schist
Includes quartz-mica schist and garnet, andalusite, and sillimanite-bearing schist; interstitial contacts gradational
 - Contact, dashed where approximately located
 - Vertical contact
 - Indefinite contact
 - Fault, showing dip
Dashed where approximately located
 - Strike and dip of foliation
 - Strike of vertical foliation
 - Strike and dip of cleavage
 - Strike and dip of foliation and plunge of lineation
 - Strike and dip of joints
 - Strike of vertical joints
 - Portal of edit
 - Small prospect pit or opencut
 - Rim of large opencut
 - Dump
