

- EXPLANATION**
- x 13v Barite prospect
 - (X) 1v Group of barite prospects
 - 15v Small barite mine
Total production probably less than 5000 tons
 - 8v Large barite mine
Total production probably more than 5000 tons
 - 2v Small group of barite mines or district
Total production probably less than 5000 tons
 - 1v Large group of mines or district
Total production probably more than 5000 tons
 - 2r Barite district with mine symbol
 - r Residual deposits of barite in clay
 - b Bedded or lenticular replacement deposit of barite in sedimentary or metamorphic rock
 - v Vein or tabular-shaped mineralized-breccia zone containing barite
 - o Other occurrences of barite such as disseminated and circle deposits
 - ? Deposits of barite not identified in the literature as to type of geologic occurrence
- Deposits are numbered consecutively in each state
