

EXPLANATION

- ⋈ 19 Mine or quarry
- ⊗ 9-10 Group of mines or quarries
- × 4 Prospect or occurrence
- ⊗ 6-8 Group of prospects or occurrences
- ★ 1 Processing plant
- ⊗ 41-46 Group of processing plants

Area of dominantly silicic volcanic rock in which perlite may be found

Geologic mapping of some areas is inadequate to show general distribution. Geology and location compiled from reports of State and Federal geological surveys, and from scientific and trade journals

Numbers are referred to in text

Base compiled by U. S. Geological Survey

By Marion C. Jaster, 1954
