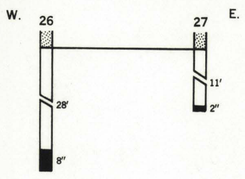
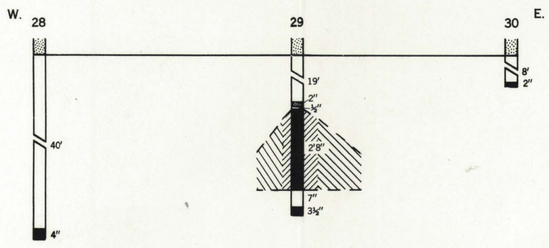
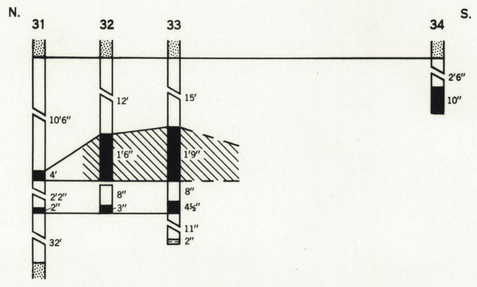
GEOLOGICAL SURVEY



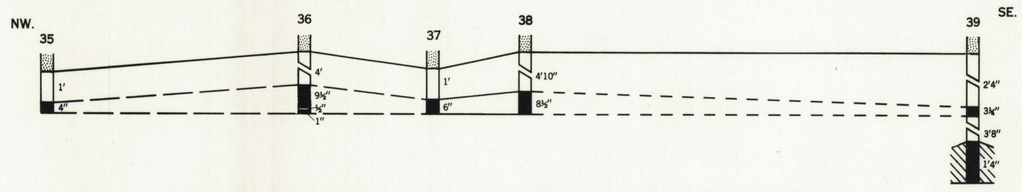
SECTIONS OF COAL BEDS IN COAL ZONE A, LOWER MEMBER, RATON FORMATION



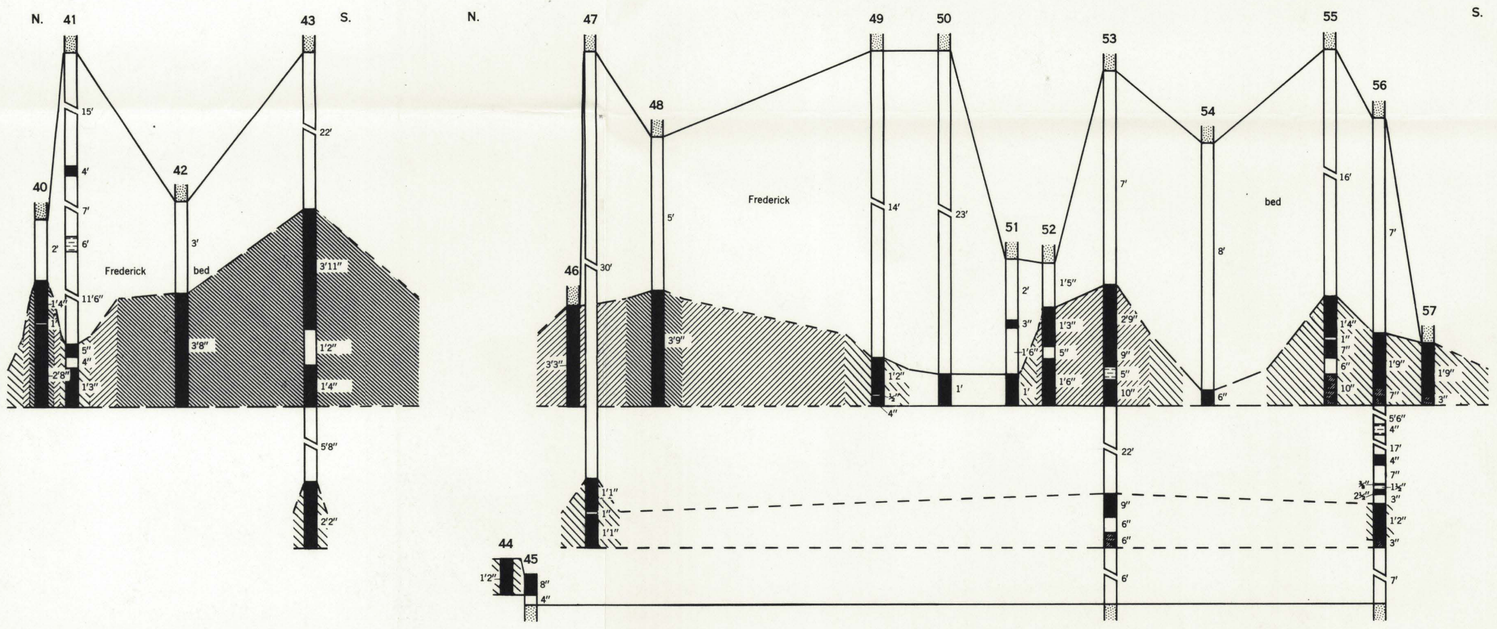
SECTIONS OF COAL BEDS IN COAL ZONE B, LOWER MEMBER, RATON FORMATION



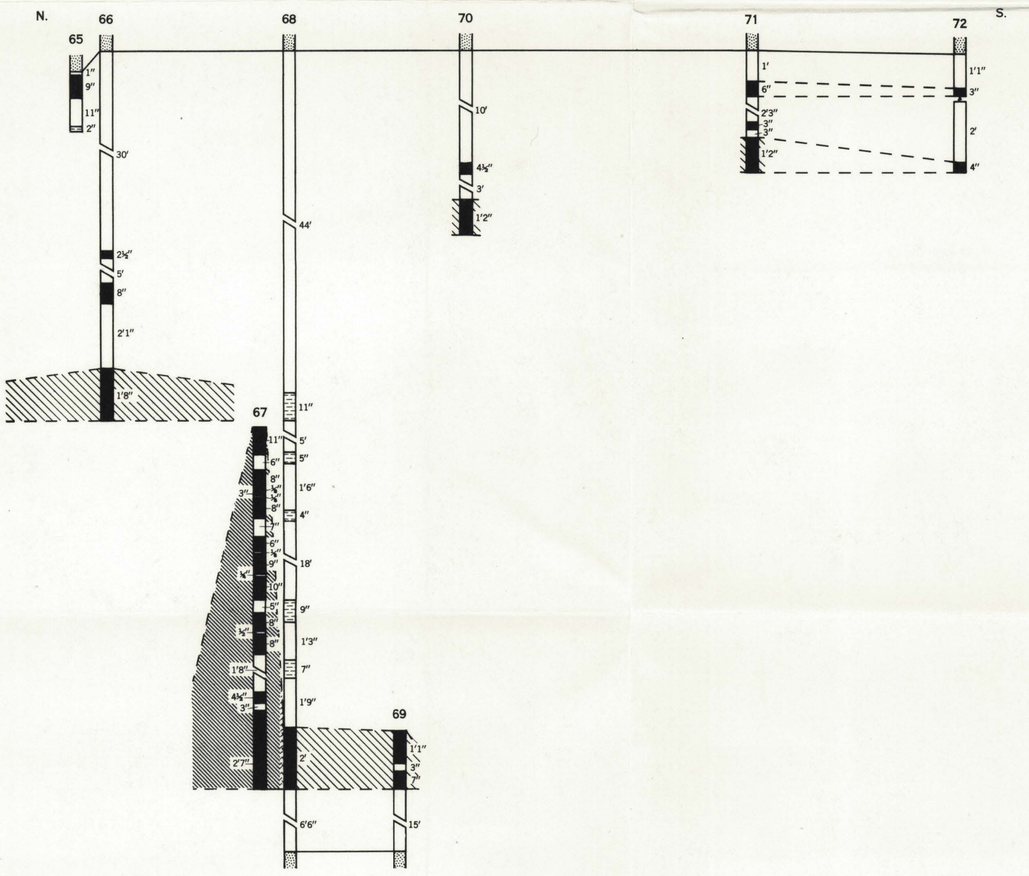
SECTIONS OF COAL BEDS IN COAL ZONE C, LOWER MEMBER, RATON FORMATION



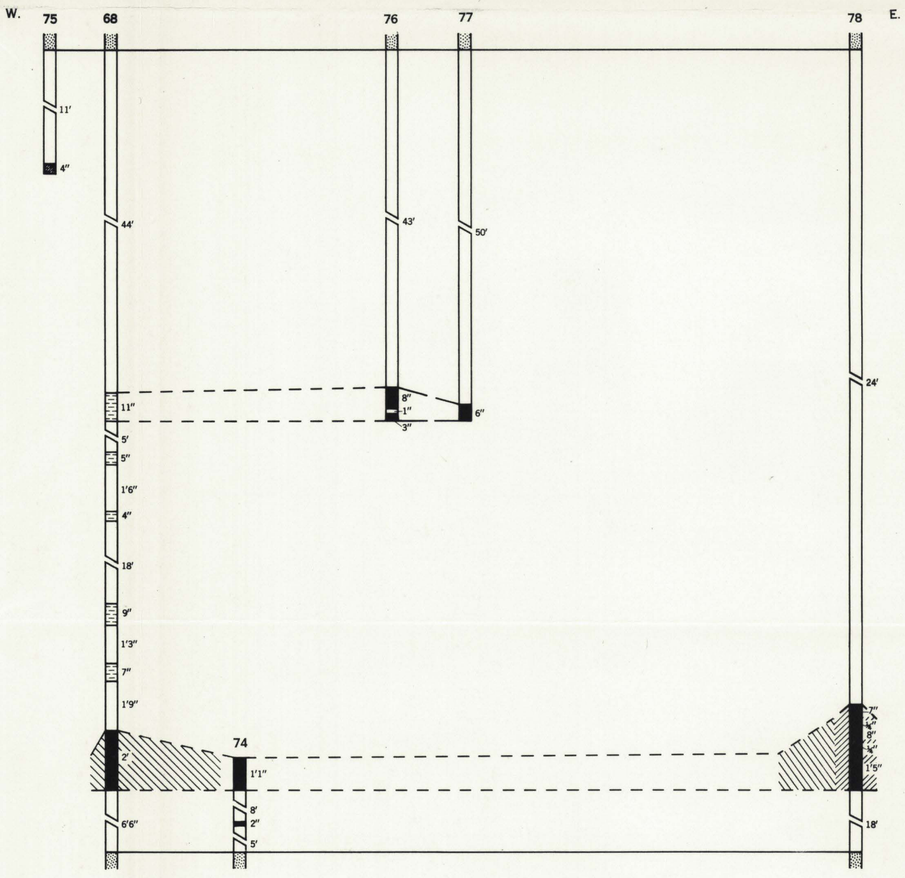
SECTIONS OF COAL BEDS IN COAL ZONE D, LOWER MEMBER, RATON FORMATION

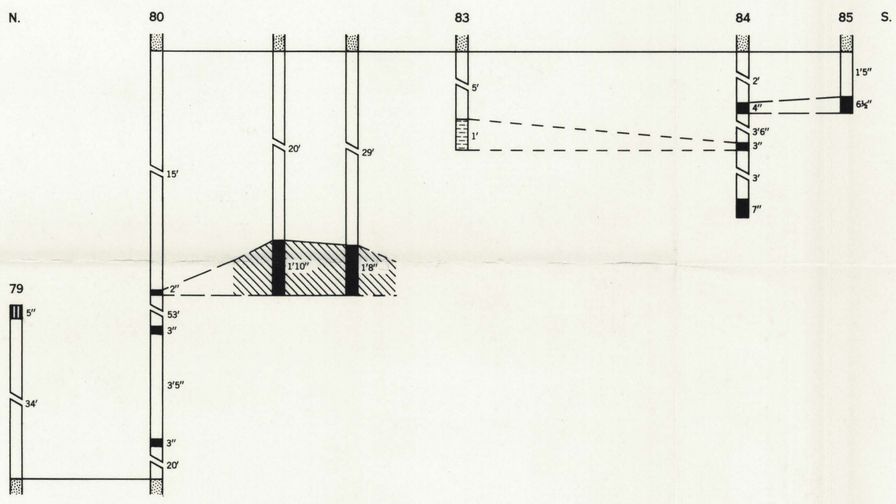


SECTIONS OF THE FREDERICK AND OTHER COAL BEDS IN COAL ZONE E, LOWER MEMBER, RATON FORMATION



SECTIONS OF COAL BEDS IN COAL ZONE F, LOWER MEMBER, RATON FORMATION





SECTIONS OF COAL BEDS IN COAL ZONE G, LOWER MEMBER, RATON FORMATION

EXPLANATION

- Coal
- Bony coal
- Natural coke
- Coaly shale
- Coaly sandstone
- Basic intrusive rock
- Mapped sandstone bed
- Sandstone, shale, siltstone and covered interval
- Same stratigraphic horizon connected by arrow
- Correlation lines between coal sections; solid where certain, long dash where probable, short dash where uncertain
- Thickness of coal bed greater than 42″
- Thickness of coal bed between 28″–42″
- Thickness of coal bed between 14″–28″
- Thickness of coal bed less than 14″
