

EXPLANATION

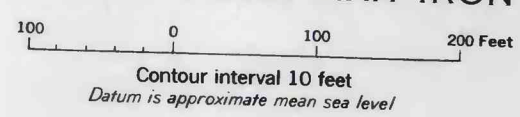

- Covered
- Alkalic granodiorite
- Diorite porphyry
- Basalt
- Gabbro
- Greenstone
- Marble
- Mineralized greenstone
- Magnetite ore
Average approximately 50 percent iron
- Inferred magnetite ore, not exposed
- Boundary of ore body from exposures
Drill cores and magnetic data in part inferred
- Approximate fault, showing dip
- Approximate vertical fault
- Shaft
- Adit
- Trench
- Lines of sections through drill holes
See plate 14
