

MINES, PROSPECTS, OR VEINS

- A I  
1. La Munyon prospects
- A II  
1. Unknown C4-3  
2. Cleveland(?)  
3. Unknown C4-10
- A III  
1. Washoe  
2. Kanawha vein  
3. Amboy  
4. United tunnel  
5. Doctor tunnel  
6. Marshall and Russell tunnel  
7. Bellevue-Rochester tunnel
- A IV  
1. Gold Belt(?) tunnel  
2. Annamona tunnel  
3. Upper Bellevue  
4. Prince Albert  
5. Silver Treasure vein  
6. Millington 3  
7. Millington 4  
8. Peabody (Robineau) prospect
- B I  
1. Wolverine
- B II  
1. Silver Bell  
2. Unknown C6-45  
3. Dunderburg(?)  
4. Johnson group  
5. Black Extension No. 1 West  
6. Unknown C5-14  
7. Unknown C5-24  
8. Unknown C5-21  
9. Unknown C5-22  
10. Alpha  
11. Black
- B III  
1. Bush Willis shaft (Boulder West-Free America vein)  
2. Boulder Nest shaft (Boulder Nest vein)  
3. Free America shaft (Free America vein)  
4. Free America Extension shaft (Free America vein)  
5. Central America (Tinker)  
6. Unknown C5-16
7. Surplus  
8. Constock crosscut  
9. Schwarz shaft (White vein)  
10. Schwarz shaft 6th-level adit (White vein)  
11. Wheeler shaft (White vein)  
12. Flat Iron shaft  
13. Flat Iron tunnel  
14. Shenandoah Valley  
15. Little Giant  
16. Homestake  
17. Jay Eye See  
18. Panama No. 2  
19. Panama (Teddy Bear) tunnel  
20. Highland Laddie  
21. Upper Dexter adits  
22. Dexter tunnel  
23. Last Chance  
24. Robat or Roebuck(?)  
25. Orient  
26. Young America adit  
27. Young America shafts  
28. Young America West shafts  
29. Princes of India tunnel  
30. Tabor tunnel  
31. Bedford
32. Lincoln vein  
33. St. James adit  
34. Desbro or Horatio Parker  
35. Grand Central  
36. St. James discovery shaft  
37. St. James shaft  
38. Blue Wing  
39. Boston shaft  
40. Boston adits  
41. Silver Nest  
42. Frederick  
43. New England and Sunburst(?) mine
44. Girard  
45. Oshkosh  
46. Girt vein  
47. Stevens vein  
48. Pumpkin  
49. Lincoln adit  
50. Mayflower crosscut  
51. Young America crosscut  
52. Commodore tunnel  
53. Burton tunnel  
54. Princes of India tunnel  
55. Murrey  
56. Akron  
57. Hamilton shaft
58. East Murray crosscut  
59. Climax (DeCapri v e i n) tunnel  
60. Elda tunnel (Jo Reynolds mine)  
61. Columbian Chief  
62. Platts adit  
63. Emmet(?)  
64. Monarch  
65. Drummond  
66. Metalle
67. Last Chance(?)  
68. Last Chance(?)  
69. Last Chance(?)  
70. Last Chance(?)  
71. Last Chance(?)  
72. Last Chance(?)  
73. Last Chance(?)  
74. Last Chance(?)  
75. Last Chance(?)  
76. Last Chance(?)  
77. Last Chance(?)  
78. Last Chance(?)  
79. Last Chance(?)  
80. Last Chance(?)  
81. Last Chance(?)  
82. Last Chance(?)  
83. Last Chance(?)  
84. Last Chance(?)  
85. Last Chance(?)  
86. Last Chance(?)  
87. Last Chance(?)  
88. Last Chance(?)  
89. Last Chance(?)  
90. Last Chance(?)  
91. Last Chance(?)  
92. Last Chance(?)  
93. Last Chance(?)  
94. Last Chance(?)  
95. Last Chance(?)  
96. Last Chance(?)  
97. Last Chance(?)  
98. Last Chance(?)  
99. Last Chance(?)  
100. Last Chance(?)

- EXPLANATION
- HORNBLende GRANODIORITE GROUP
- Biotite-quartz latite porphyry
- Bostonite GROUP
- Quartz bostonite porphyry
- Trachytic granite porphyry
- Bostonite porphyry
- Garnetiferous bostonite porphyry
- QUARTZ MONZONITE GROUP
- Quartz monzonite porphyry
- Biotite granodiorite porphyry
- Hornblende granodiorite porphyry

- Contact, showing dip
- Dashed where approximately located; short dashed where inferred; dotted where concealed by surficial deposits
- Fault, showing dip
- Dashed where approximately located; short dashed where inferred; dotted where concealed by surficial deposits
- Unclassified vein, showing dip
- Galena-sphalerite vein
- Composite vein
- Pyritic vein
- All veins dashed where approximately located; short dashed where inferred; dotted where concealed by surficial deposits. Bold number refers to list of names for mines, prospects, or veins
- 4 Shaft  
52 Adit  
x Prospect pit  
x Mine openings
- Bold number refers to list of names for mines, prospects, or veins

MAP OF THE LAWSON-DUMONT-FALL RIVER DISTRICT, CLEAR CREEK COUNTY, COLORADO, SHOWING LOCATION OF MINES AND DISTRIBUTION OF VEINS AND IGNEOUS ROCKS OF TERTIARY AGE
