DESCRIPTION OF MAP UNITS

PLIOGENIC AND METAMORPHIC ROCKS

Plio-Pleistocene

Quaternary

Upper Tertiary

Eocene

Triassic

Mesozoic

Permian

Carboniferous

Devonian

Ordovician

Silurian

Cambrian

Precambrian

The following rocks are represented by colors on the map:

- Plio-Pleistocene
- Quaternary
- Upper Tertiary
- Eocene
- Triassic
- Mesozoic
- Permian
- Carboniferous
- Devonian
- Ordovician
- Cambrian
- Precambrian

These rocks are distributed across the map and are identified by their respective geological时代 and location.
