

EXPLANATION

- Geologic units shown between columns**
- Shedhorn Sandstone—Includes upper and lower tongues
 - Park City Formation—Includes Ervay Tongue, Franson Tongue, and Grandeur Member
 - Phosphoria Formation—Includes Tosi Chert Tongue, Retort Phosphatic Shale Member, Rex Chert Member, Meade Peak Phosphatic Shale Member, and lower chert tongue
 - Contact—Queried where correlation is uncertain
 - Unconformity
- Rock names**
- Carbonate rock
 - Limestone
 - Dolomite
 - Sandstone
 - Chert
 - Mudstone
 - Siltstone
- Adjectives—Symbols used in combination with those for rock names**
- Carbonatic
 - Calcareous
 - Dolomitic
 - Sandy
 - Cherty
 - Argillaceous
 - Phosphatic
 - Slightly phosphatic
 - Conglomeratic
 - Covered interval

Sections 1 and 2 modified from Sheldon (1957, pl. 13); sections 3-7 modified from Sheldon (1963, pl. 5)

SECTIONS SHOWING CORRELATION OF LITHOLOGIC UNITS IN PHOSPHORIA FORMATION ADJACENT TO THE TETON WILDERNESS, TETON AND FREMONT COUNTIES, WYOMING
