

Map Showing Surface and Subsurface Geological Data and Location of Data Points, Eastern Offshore Santa Maria Basin

By
C. Richard Willingham, Jan D. Rietman, Ronald G. Heck, and William R. Lettis
2013

Suggested Citation: Willingham, C.R., Rietman, J.D., Heck, R.G., and Lettis, W.R., 2013. Characterization of the Heugli Fault Zone and adjacent structures in the offshore Santa Maria Basin, south-central California. U.S. Geological Survey Bulletin 1995-CC, scale 1:200,000 (<http://pubs.usgs.gov/bul/1995/cc/>).

Any use of trade, product, or firm names in this publication is for descriptive purposes only and does not imply endorsement by the U.S. Government. This map was printed on an electronic plotter directly from digital files. Dimensional calibration may vary between electronic plotters and between X and Y directions on the same plotter, and paper may change size due to atmospheric conditions; therefore, scale and proportions may not be true on plots of this map. Digital files available at <http://pubs.usgs.gov/bul/1995/cc/>.
