VERMONT

## CONTENTS

---

[The letters in parentheses preceding the titles are those used to designate the papers for advance publication]

	Page
(A) Some mining districts of eastern Oregon, by James Gilluly, J. C. Reed, and C. F. Park, Jr.-----	1
(B) Geology and ore deposits of the Takilma-Waldo district, Oreg., including the Blue Creek district, by Philip J. Shenon-----	141
(C) The Climax molybdenum deposit, Colorado, by B. S. Butler and J. W. Vanderwilt, with a section on history, production, metallurgy, and development by Charles W. Henderson-----	195
(D) Some lode deposits in the northwestern part of the Boise Basin, Idaho, by Clyde P. Ross-----	239
Index-----	279

## ILLUSTRATIONS

---

	Page
PLATE 1. Index map showing location of mining districts in eastern Oregon-----	8
2. Topographic and geologic map of the Mormon Basin mining district, Baker and Malheur Counties, Oreg.-----	32
3. Geologic sketch of underground workings of Amalgamated Mines Co., East Eagle district, Oreg-----	72
4. Topographic and geologic map of Virtue district, Baker County, Oreg-----	72
5. Sketch map of mill-tunnel level of Virtue mine, Virtue district, Oreg-----	72
6. Composite plan and section of Flagstaff mine, Virtue district, Oreg-----	72
7. Map and section of Standard mine, Quartzburg district, Oreg-----	104
8. Geologic sketch map of Gold Hill and vicinity, Ochoco Creek area, Oreg-----	128
9. Index map of southwestern Oregon and northwestern California-----	150
10. Topographic map of Takilma-Waldo district, Oreg., and vicinity-----	150
11. Geologic map of Takilma-Waldo district, Oreg-----	150
12. A, Cretaceous conglomerate and sandstone lenses; B, Spheroidal weathering in Cretaceous sandstone-----	150
13. A, Tertiary conglomerate resting on greenstone at High Gravel mine; B, Tertiary conglomerate with sandstone lenses at Platerica mine-----	150

	Page
<b>PLATE 14.</b> <i>A</i> , Gravel of Llano de Oro formation resting on Tertiary conglomerate at Llano de Oro mine; <i>B</i> , Serpentine bedrock at Llano de Oro mine.....	150
15. Plan of north-end workings of Queen of Bronze mine.....	166
16. <i>A</i> , Tabular body of sulphide ore terminated by a fault, Queen of Bronze mine; <i>B</i> , Boulder ore from Cowboy mine.....	166
17. <i>A</i> , <i>B</i> , Photomicrographs of ore from Queen of Bronze mine.....	166
18. Plan and sections of part of Cowboy mine.....	174
19. <i>A</i> , <i>B</i> , Photomicrographs of ore from Cowboy mine.....	174
20. <i>A</i> , <i>B</i> , Photomicrographs of ore from Cowboy mine.....	174
21. <i>A</i> , Chromite deposit in serpentine, Llano de Oro mine; <i>B</i> , Hydraulic elevators used to lift water and tailings from placer pits, Llano de Oro mine; <i>C</i> , Undercurrents for saving fine gold and platinum, Llano de Oro mine.....	182
22. <i>A</i> , Leached outcrop at Turner mine; <i>B</i> , Quartz-zeolite veinlets in Tertiary conglomerate, Platerica mine.....	182
23. Geologic map and sections of Climax molybdenum district... In pocket	
24. <i>A</i> , Climax district in winter; <i>B</i> , Panorama of a part of Mosquito Range including Climax district.....	198
25. Recrystallized schist.....	206
26. Secondary orthoclase.....	222
27. <i>A</i> , Orthoclase replacing muscovite; <i>B</i> , Pyrite vein with topaz gangue.....	222
28. Molybdenite veins.....	222
29. Molybdenite veins.....	222
30. Molybdenite-quartz veins.....	222
31. "Blue quartz" veins.....	222
32. Detailed map of Climax molybdenum district..... In pocket	
33-37. Cross sections of molybdenum deposit..... In pocket	
38. Content of molybdenum as sulphide and oxide in some diamond-drill cores.....	230
39. Claim map of the central and western parts of the Boise Basin, Idaho..... In pocket	
40. Geologic map of the Quartzburg area, Boise basin.....	242
41. <i>A</i> , Dacite porphyry, Gold Hill mine; <i>B</i> , Rhyolite porphyry, Gold Hill mine; <i>C</i> , Granite porphyry, Belshazzar mine.....	250
42. Granophyre porphyry.....	250
43. Composite level map of the Gold Hill mine..... In pocket	
44. Geologic maps of the 250, 400, and 700 levels, Gold Hill mine..... In pocket	
45. Diagrammatic geologic sections through the Gold Hill mine..... In pocket	
46. Photomicrographs of ore from the Gold Hill mine, showing relations between the native gold and the bismuth minerals... 266	266
47. Geologic map of the Belshazzar mine..... In-pocket	
48. Sketch map of the Missouri mine.....	274
<b>FIGURE</b> 1. Geologic map of Sunday Hill mine, Mormon Basin, Oreg.....	40
2. Geologic map of the Randall mine, Mormon Basin, Oreg.....	42
3. Geology of tunnel on Overshot group, Mormon Basin, Oreg... 43	43
4. Geology of the Summit Mining & Milling Co.'s tunnel, Mormon Basin, Oreg.....	44

	Page
<b>FIGURE</b> 5. Tunnel on Hice prospect, Mormon Basin, Oreg-----	46
6. Map of the workings of the Gold Hill mine, near Durkee, Oreg-----	55
7. Map of the Crystal Palace mine, near Sparta, Oreg-----	60
8. Map of the Macy mine, Sparta district, Oreg-----	61
9. Map of the Basin mine, Sanger district, Oreg-----	68
10. Map of the workings of the Black Prince prospect, near Dixie Butte, Quartzburg district, Oreg-----	91
11. Geologic map of third level, Colorado vein, Equity group, Quartzburg district, Oreg-----	92
12. Workings of Paul Tote prospect, Quartzburg district, Oreg--	94
13. Workings on lower tunnel level, Yankee Boy vein, Quartz- burg district, Oreg-----	95
14. Geology of New Forrester tunnel, Forrester group, Quartz- burg district, Oreg-----	97
15. Map of Copperopolis mine, Quartzburg district, Oreg-----	100
16. Paragenesis of minerals in Susanville district, Oreg., as shown by studies of polished sections of ore-----	109
17. Map of Princess prospect, Susanville district, Oreg-----	114
18. Map of workings, Belle of the Hills prospect, Susanville dis- trict, Oreg-----	115
19. Map showing location of deposits in the Ochoco district, Oreg., described in this report-----	119
20. Map of main level, Quicksilver Consolidated Mining Co.'s mine, Ochoco district, Oreg-----	122
21. Sketch map of lower tunnel, Ophir-Mayflower mine, Ochoco Creek, Oreg-----	134
22. Section illustrating relation of Tertiary conglomerate to bed- rock series, Takilma-Waldo district, Oreg-----	153
23. Sections through Hampshire stope on D level of Queen of Bronze mine-----	165
24. Plan of workings of Waldo mine-----	167
25. Geologic map of Blue Creek district-----	191
26. Map showing relation of part of underground workings to leached outcrops at Turner mine-----	193
27. Section of the Weber and Maroon formations in the area northwest of the Tenmile district and east of Red Cliff----	212
28. Idealized representation of Climax molybdenum pipe or stock--	220
29. Climax molybdenum deposit in block diagram-----	221
30. Molybdenite content in drift 2, Phillipson level-----	222
31. Changes in the alteration of pre-Cambrian Silver Plume granite-----	224
32. Index map of Idaho showing the location of the Boise Basin--	240
33. Longitudinal vertical projection through the Gold Hill mine--	257
34. Idealized diagram of an ore body in the Pioneer workings of the Gold Hill mine-----	258
35. Sketch map of the Mayflower mine-----	263
