# MINERAL RESOURCES OF ALASKA

REPORT ON PROGRESS OF  
INVESTIGATIONS IN

1935 DEPARTMENT OF GEOLOGY  
OHIO STATE UNIVERSITY

BY

PHILIP S. SMITH AND OTHERS

UNITED STATES  
GOVERNMENT PRINTING OFFICE  
WASHINGTON : 1938

## CONTENTS

[The letters in parentheses preceding the titles are those used to designate the papers for separate publication]

	Page
(A) Mineral industry of Alaska in 1935, by P. S. Smith (published in March 1937)-----	1
(B) Recent mineral developments in the Copper River region, by F. H. Moffit (published in February 1937)-----	97
(C) Kodiak and adjacent islands, by S. R. Capps (published in January 1938)-----	111
(D) The Eska Creek coal deposits, Matanuska Valley, by Ralph Tuck (published in November 1937)-----	185
Selected list of Geological Survey publications on Alaska.....	On back of plate 1

## ILLUSTRATIONS

	Page
<b>PLATE 1.</b> Map of Alaska, showing areas covered by selected available reports and maps of Alaska-----	In pocket
2. Reconnaissance geologic map of Kodiak and adjacent islands. In pocket	In pocket
3. Map of Kodiak and adjacent islands showing areas in which trees occur-----	122
4. A, Dense brush at head of Ugak Bay, Kodiak Island; B, Contorted chert and slate, Sitkalidak Strait, Kodiak Island-----	138
5. A, Ellipsoidal greenstone, Ghost Rocks, Sitkalidak Strait; B, Interbedded slate and graywacke, Izhut Bay, Afognak Island-----	138
6. A, Interbedded slate and graywacke, Zachar Bay, Kodiak Island; B, Concretionary graywacke, Sharatin Bay, Kodiak Island-----	138
7. A, Quartz veins in graywacke, Tonki Bay, Afognak Island; B, Contorted slate and graywacke, near diorite contact, Shamanof Point, Kodiak Island-----	139
8. A, Folded and faulted Eocene (?) sandstone and shale, Sitkalidak Island; B, Steeply dipping Eocene (?) sandstone, Cape Kaguyak, Kodiak Island-----	154
9. A, Gently folded Miocene or Pliocene marine sandstone, Narrow Point, Kodiak Island; B, Diorite sill cutting slate and graywacke, Sharatin Bay, Kodiak Island-----	155
10. A, Glaciated slate and graywacke mountains of upper Ugak Bay, Kodiak Island; B, Postglacial gulches on south side of Ugak Bay, Kodiak Island-----	162
11. Topographic and geologic map of the Eska Creek coal deposits, Matanuska Valley-----	In pocket
12. Geologic sections of the Eska Creek coal deposits, Matanuska Valley-----	In pocket
13. Sections of principal coal beds in vicinity of Eska Creek-----	In pocket
14. Logs of churn-drill holes in vicinity of Eska Creek-----	In pocket
<b>FIGURE 1.</b> Trends of mineral production of Alaska, 1890-1935-----	8
2. Trend of value of gold production of Alaska, 1880-1935-----	12
3. Copper produced from Alaska mines, 1900-1935, and fluctuations in the price of copper during that period-----	69
4. Sketch map of Golconda Creek and vicinity-----	100
5. Index map showing location of Kodiak and adjacent islands---	113
