Laccolith Complexes of Southeastern Utah: Time of Emplacement and Tectonic Setting—Workshop Proceedings

U.S. Geological Survey Bulletin 2158
LACCOLITH COMPLEXES OF SOUTHEASTERN UTAH:
TIME OF EMPLACEMENT AND TECTONIC SETTING—
WORKSHOP PROCEEDINGS
Frontispiece.  Landsat 5 Thematic Mapper color-infrared composite image of the northern part of the Paradox Basin and the La Sal Mountain laccolith complex. See page z for generalized geologic map of the area.
Laccolith Complexes of Southeastern Utah: Time of Emplacement and Tectonic Setting—Workshop Proceedings

By Jules D. Friedman and A. Curtis Huffman, Coordinators

Application of new geochemical dating techniques, geophysics, and geologic mapping results to the classic problem of the nature and geologic setting of these well-known complexes in order to clarify time of Tertiary volcanism and relationship to regional tectonics
