

Figure 12. Palmer Drought Severity Index reconstructions based on tree-ring studies for 1963, 1964, 1966, and 1967. Maps are from Cook and others (1999); see data at http://www.ngdc.noaa.gov/paleo/image/pdsi/PDSI_tr.mov. The reconstructions show that drought affected large areas of the United States during the 1960's.
