EXPLANATION

Boundary of project area

Boundary of Grand Teton National Park

5

Area where ground water might be developed from deposits of Quaternary age. Number refers to section in text, "Possibilities for future ground-water development"

29adc
T

Well

Shows abbreviated well number. Numbers omitted where section numbers are on base map. F, flowing well; T, test well

36bac

Test hole

3cdb

Spring

Listed in table 3

A ——— A′

Line of section

Section shown on figure 7

APPROXIMATE MEAN DECLINATION, 1965

Base from U.S. Geological Survey topographic map, 1948

MAP SHOWING WELLS, TEST HOLES, SPRINGS, AND AREAS WHERE ADDITIONAL WATER MIGHT BE DEVELOPED FROM QUATERNARY DEPOSITS, JACKSON LAKE AREA, WYOMING
