BIBLIOGRAPHY OF U. S. GEOLOGICAL SURVEY PUBLICATIONS

ON COPPER, (To January 1, 1952)

PURPOSE AND SCOPE

This bibliography lists all publications on copper published prior to January 1, 1952. The reports are grouped by type of publication, such as professional papers, bulletins, monographs, and are numbered consecutively from 1 to 235. These numbers are used to refer to the reports in the subject and author indexes at the end of the bibliography. The subject index lists the publications alphabetically by location and topic, and the author index lists the reports by their authors.

Unless otherwise indicated, publications for which prices are given can be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C. Those preceded by an asterisk (*) are out of print but can be seen in many public and university libraries.
