REPORTS AND MAPS OF
THE GEOLOGICAL SURVEY
RELEASED ONLY IN THE
OPEN FILES, 1952
REPORTS AND MAPS OF THE GEOLOGICAL SURVEY
RELEASED ONLY IN THE OPEN FILES, 1952

By Donald R. Wiesnet, Lois E. Randall, and Benjamin E. Jones
INTRODUCTION

This circular contains a list of the maps and reports released by the Geological Survey in 1952 that are available only in open files. They may be consulted in the Geological Survey Library in Washington, D.C., and at various field offices, the addresses of which are given immediately after the date of the report. They may also be read at the offices of various cooperating agencies, as indicated.

Most of the maps were duplicated by rapid and inexpensive processes, such as photostat, vandyke, or ozalid, but some were printed by photolithography. Most of the texts for the reports are typed copies (ribbon or carbon copy), but some have been mimeographed. A few of these reports and maps were made available in limited quantities for distribution, as indicated in the list, and these may be obtained as long as the supply lasts.

The reports and maps of the Conservation Division concern the geology or the topography of federally owned or controlled lands as they affect the production of water power, oil, and gas; they cover areas studied and mapped by geologists and engineers in 4 States.

The reports and maps of the Geologic Division contain results of work accomplished by Survey geologists in 35 States, Alaska, the Virgin Islands, the Trust Territory of the Pacific, Honduras, Mexico, and Japan. These maps and reports are released in preliminary form in order to make information immediately available to property owners and mine operators concerned with exploration for and production of minerals, fuels, and construction materials.

The reports of the Water Resources Division contain information on streamflow, ground water, quality of water, and related geology and hydrology, in the United States, the Virgin Islands, the Trust Territory of the Pacific, and Japan.

A general index follows, in which the reader is referred to a report by its serial number as listed in the following list of reports, which are arranged alphabetically by names of the authors.

MAPS AND REPORTS

A limited number of copies of the translation have been mimeographed and, as long as the supply lasts, can be obtained by writing to the U. S. Geological Survey, Washington 25, D. C.

35. Doyel, W. W., Two cross sections showing sand and clay zones, Atascosa and Live Oak Counties, Tex.; and sand and clay zones, McMullen, Atascosa, and Karnes Counties, Tex.: July 22, 1952. 302 West 15th St., Austin, Tex.

78. Hoy, N. D., Two maps of Dade County, Fla., showing approximate position of the 1,000-ppm isochlor as of 1961 and approximate area of potential salt-water penetration under 1945 conditions. Feb. 12, 1952. Dinner Key, South Bayshore Dr., Miami, Fla.

79. Hoy, N. D., Map of Dade County, Fla., showing the approximate average annual water levels for 1945. Mar. 26, 1952. Dinner Key, South Bayshore Dr., Miami, Fla.

80. Hoy, N. D., Two maps of Dade County, Fla., showing the average annual water levels, 1960, and the approximate average water levels for the period 1940-1950. May 28, 1952. Dinner Key, South Bayshore Dr., Miami, Fla.

88. Lamar, W. L., Chemical and physical character of brines from the Dundee formation: 17 p., 7 tables. June 24, 1952. 2822 East Main St., Columbus, Ohio.

93. Loeltz, O. J., Ground-water conditions in the vicinity of The Strip, Las Vegas Valley, Clark County, Nev.: 1952. 14 p., 1 pl., 1 fig. Dec. 2, 1952. 231 State Office Bldg., 201 South Fall St., Carson City, Nev.; Office of the State Engineer, Carson City, Nev.

115. Rasmussen, W. C., and Haigler, L. B., Ground­

130. Robinson, T. W., Investigation of the water resources of the Nevares property in Death Valley National Monument, Calif.: 21 p., 1 fig. Feb. 12, 1952. 231 State Office Bldg., 201 South Fall St., Carson City, Nev.

131. Rogers, C. L., Ulloa, 130.

137. Sharp, W. N., and Pray, L. D., Geologic map of the southeastern part of the Point Misery quadrangle, Wash.: Sept. 15, 1952. 2128 South 38th St., Tacoma, Wash.
