INTRODUCTION

This circular contains a list of the maps and reports released by the Geological Survey in 1959 that are available in open files. They may be consulted at the offices listed beneath each report.

The following circulars list open-file reports and maps released during the years indicated: 56 (1946-47), 64 (1948), 149 (1949-50), 227 (1951), 263 (1952), 337 (1953), 364 (1954), 379 (1955), 401 (1956), 403 (1957), and 412 (1958).

The Conservation Division has placed in open file 1 report on glacier observations in Montana, 2 reports on waterpower resources in the Pacific Northwest, 1 report on the geology of a coal district in Wyoming, 3 geologic and structure maps in Colorado, and 5 geologic and structure maps in Wyoming.

The reports and maps of the Geologic Division contain results of work accomplished by Survey geologists and geophysicists in 26 states, and Brazil, Libya, Mexico, and Puerto Rico. These maps and reports are released in preliminary form in order to make information immediately available to persons concerned with exploration for and production of minerals, fuels, and construction materials.

The reports of the Water Resources Division contain information on streamflow, ground water, quality of water, and related geology and hydrology in the United States, and in the Caroline Islands, Tunisia, and the Virgin Islands.

The reports are arranged alphabetically by authors, and each one is preceded by a serial number. In the general index following this list of reports, the serial number is used to identify the report.

The following addresses cited in this circular are Geological Survey libraries: Room 1033, GSA Bldg. (General Services Administration Bldg.), Washington, D. C.; Federal Center, Denver, Colo.; 345 Middlefield Rd., Menlo Park, Calif.

MAPS AND REPORTS

44. Goudarzi, Gus, A summary of the geologic history of Libya: 8 p., 1 map. Nov. 16, 1959. Room 1033,

55. Hood, J. W., Summary of results of ground-water investigation in vicinity of Boles well field, Otero County, New Mexico: 17 p., 3 figs. May 26, 1959. Room 279, Geology Bldg., Univ. of New Mexico, Albuquerque, New Mexico; Room 1242-G, GSA Bldg., Washington, D. C.

77. Laine, L. L., Correlative estimates of discharge for Verdigris River (tributary to Arkansas River) near Tenapah, Oklahoma, for year ending September 30, 1938: 2 p. July 1, 1959. Room 402, 1101 North Broadway, Oklahoma City, Okla.; Room 2236, GSA Bldg., Washington, D. C.

Los Angeles, Calif.; Room 504, Federal Bldg., Salt Lake City, Utah.

100. Rapp, J. R., Reconnaissance of the geology and ground-water resources of the Farmington area. San Juan County, New Mexico: 10 p., 1 fig. Sept. 15, 1959. Room 279, Geology Bldg., Univ. of New Mexico, Albuquerque, N. Mex.; Room 1242-G, GSA Bldg., Washington, D. C.

129. Yost, I. D., Floods and flood control on the Colorado River at Austin, Tex.: 9 p., 3 figs. Feb. 20, 1959. 807 Brazos St., Austin, Tex.; 300 West Vickery St., Fort Worth, Tex.; Room 1013, Federal Bldg., Houston, Tex.; 1602 West Beauregard St., San Angelo, Tex.; Room 318-319 Federal Bldg., Wichita Falls, Tex.; Room 2236, GSA Bldg., Washington, D.C.

130. Young, L. L., Summary of the waterpower resources of the Pacific Northwest and Oregon's part of these resources: 10 p., 2 figs. Mar. 5, 1959. Room 1033, GSA Bldg., Washington, D.C.; Room 834, Interior Bldg., Protail, Ore.
