Index of Surface-Water Records to December 31, 1963

Part 1.—North Atlantic Slope Basins

By B. A. Anderson and C. B. Ham

INTRODUCTION

This report lists the streamflow and reservoir stations in the North Atlantic slope basins for which records have been or are to be published in reports of the Geological Survey for periods prior to December 31, 1963. It supersedes Geological Survey Circular 381.

Basic data on surface-water supply have been published in an annual series of water-supply papers consisting of several volumes, including one each for the States of Alaska and Hawaii. The area of the other 48 States is divided into 14 parts whose boundaries coincide with certain natural drainage lines. Prior to 1951, the records for the 48 States were published in 14 volumes, one for each of the parts. From 1951 to 1960, the records for the 48 States were published annually in 18 volumes, there being 2 volumes each for Parts 1, 2, 3, and 6. The boundaries of the various parts are shown on the map in figure 1.

Beginning in 1961, the annual series of water-supply papers on surface-water supply was changed to a 5-year series. Records for the period 1961-65 will be published in a series of water-supply papers using the same 14 part divisions for the 48 States, but most parts will be further subdivided into two or more volumes. In order to meet interim requirements, beginning in 1961, local offices issue reports annually containing streamflow records for the State or States within the local district.

In addition to the continuous-record gaging stations, this index includes crest-stage and low-flow partial-record stations. A continuous-record station is a gaging station on a stream or reservoir for which the discharge, stage, or contents is published on a daily, weekly, or monthly basis for a continuous period of time. A crest-stage partial-record station is a streamflow station for which only the annual maximum discharge is published over a period of years for use in floodflow analyses. A low-flow partial-record station is a streamflow station for which only discharge measurements made at base flow, when streamflow is primarily from ground-water storage, are published. Measurements are generally collected over a period of five years or more for use in low-flow analyses. Discharge measurements have been made at many sites and published as miscellaneous measurements. Such measurements are not included in this index except those made in earlier years at sites now classified as low-flow partial-record stations.

An alphabetical list of streams, lakes, and reservoirs is given on pages 61-73.

DOWNSTREAM ORDER

The stations in this index are listed in the downstream order used in the series of water-supply papers on surface-water supply of the United States since 1951. Starting at the headwater of each stream all stations are listed in a downstream direction. Tributary streams are indicated by indentation and are inserted between main-stem stations in the order in which they enter the main stream. To indicate the rank of any tributary on which a record is available and the stream to which it is immediately tributary, each indentation in the listing of stations represents one rank. A stream name, only, is inserted where necessary for the purpose of showing the proper rank or order of tributaries. For some stations on lakes for which the outlet stream is unnamed or which are far removed in tributary rank from the gaged stream, a double indentation beyond the preceding entry is used to indicate that each direct tributary step is not shown.

STATION NAMES

Station names are given in their most recently published form. Parentheses around part of a station name indicate that the enclosed word or words were used in an earlier published name of the station or as an alternate name. Parenthetical explanations are also used to indicate that a stream of a different name is the head of the main stream by use of "(head of _____ River)" and that the name of the main stream has changed by use of "(continuation of _____ River)."

STATION NUMBER

As an added means of identification, each continuous- and partial-record station has been assigned a station number. The numbers have been assigned in the same downstream order used in this index. In assigning station numbers, gaps were left to allow for new stations that may be established; hence the numbers are not consecutive. The complete number for each station includes the part number, which is omitted in this index. The number given consists of only the essential digits of the complete number. For example, for a station with the complete number 01-0345.00, the station number shown in this index is 345.

DRAINAGE AREA

The drainage area, in square miles, is the latest figure published or otherwise available at this time.

PERIODS OF RECORD

Under "Periods of record" are three columns. The first column, "Daily or monthly figures," shows the periods of record for continuous-record gaging stations. The dates given are the calendar years in which records began or ended; breaks of less than a year are not shown. For example, if a record began in October 1923, ended in April 1932, began again in March 1933, and ended in September 1944, the period of record would be shown as 1923-44.

The second column, "Annual peaks," shows the period of record for crest-stage partial-record stations. The dates given are the water years for which the annual maximum discharge is available. The water year begins October 1 and ends September 30. In listing the water year, only one date is shown; for example, 1952 stands for the water year October 1, 1951, to September 30, 1952.

The third column, "Low-flow measurements," shows the period of record for low-flow partial-record stations. The dates given are the water years in which base-flow measurements were made at low-flow partial-record stations; breaks of less than two years are not shown. Prior to the 1958 water year, such measurements were published in tables headed "Miscellaneous discharge measurements" or "Discharge measurements at sites other than gaging stations." Many discharge measurements have been made at miscellaneous sites which are not listed in this index because the data collected were not sufficient to qualify the site as a low-flow partial-record station.

A date followed by only a dash shows that the station was continued in operation beyond December 31, 1963. A date followed by a period indicates discontinuance. A date followed by a semicolon indicates a break in the collection of records.

Periods of record for the same continuous-record station published by other agencies are listed only when they are for periods not published in reports of the Geological Survey. These periods are indicated by symbols and footnotes. Records collected by other agencies are included only for stations for which there is some record published in Geological Survey reports.

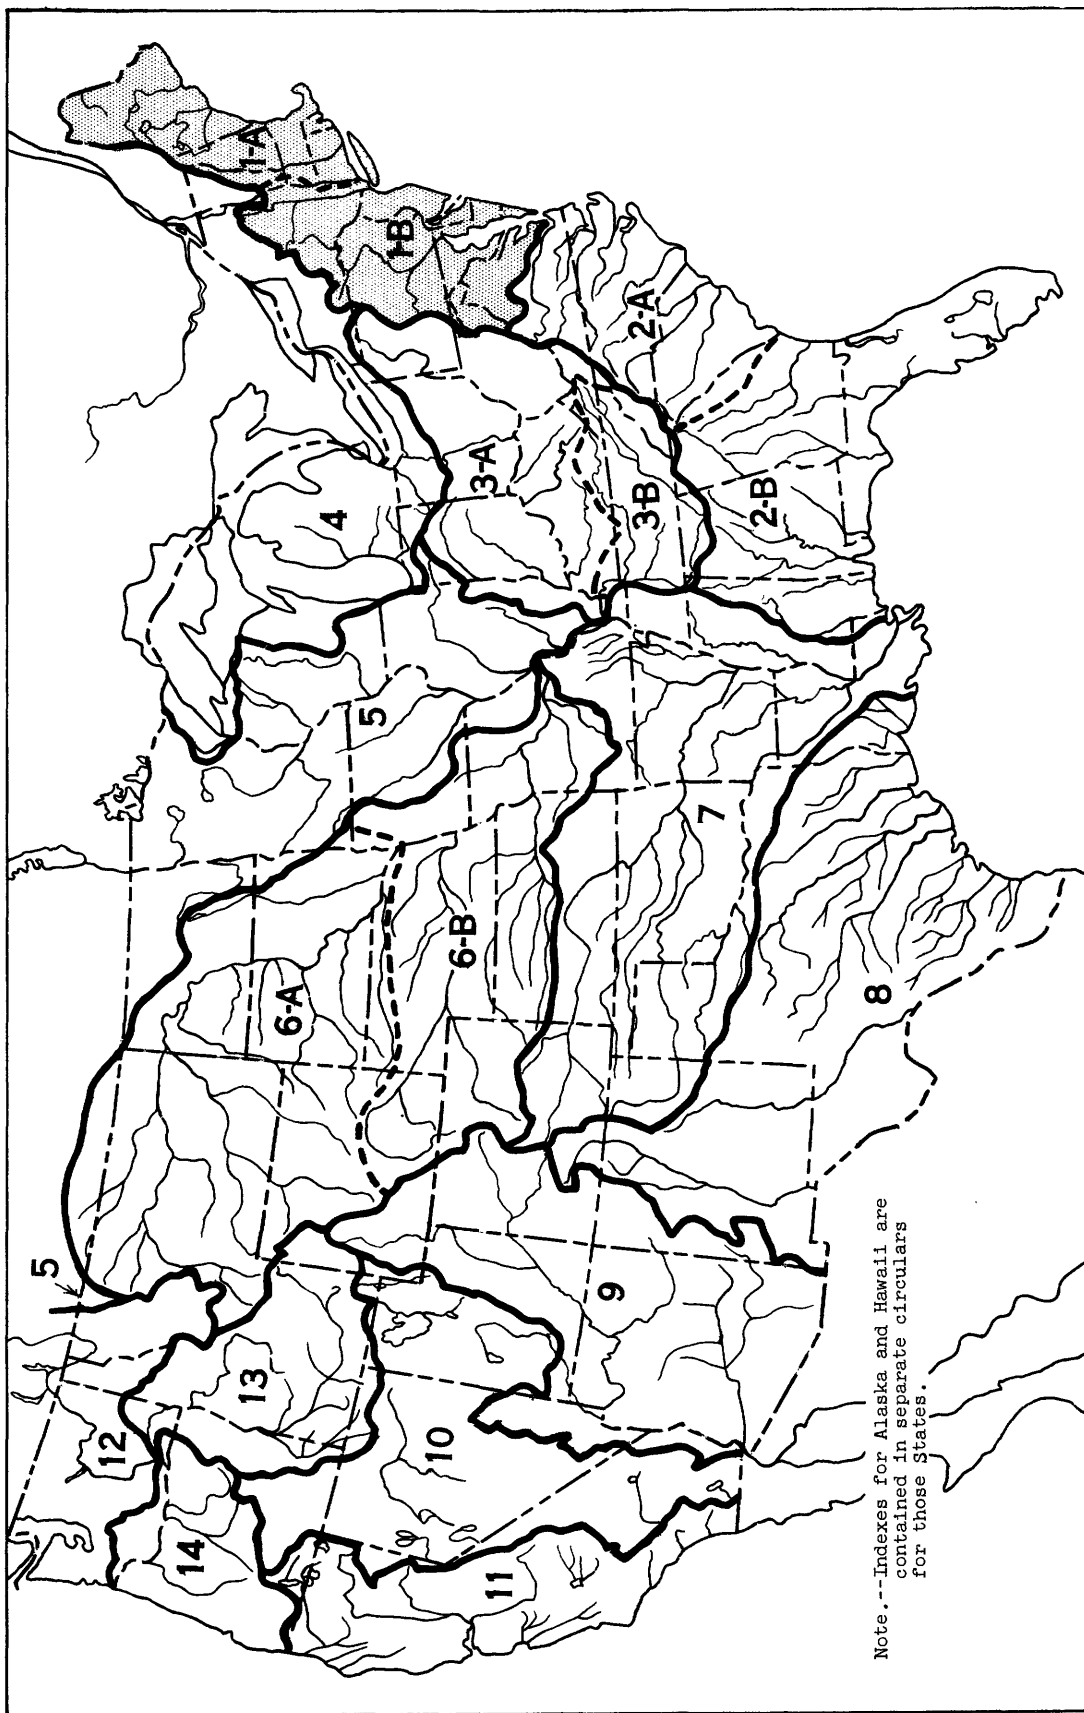

Figure 1.--Map of the conterminous United States showing the 14 parts covered by indexes of surface-water records to December 31, 1963. The part covered by this index is shaded.

Station name	Station number	Drainage area (sq mi)	Periods of record		Low-flow measurements
			Daily or monthly figures	Annual peaks	
St. John River basin	1-				
St. John River at Ninemile Bridge, Maine.....	100	a1,290	1950-		
St. John River at (near) Dickey, Maine.....	105	a2,700	1910-11;1946-		
Allagash River near Allagash, Maine.....	110	b1,250	1910-11;1931-		
St. Francis River at outlet of Glazier Lake, near Connors, New Brunswick.	115	520	1951-		
St. Francis River near St. Francis, Maine.....	120	a560	1910-11.		
St. John River at Fort Kent, Maine.....	125	b4,790	1906-15.		
Fish River at Wallagrass, Maine.....	130	860	1903-8;1911.		
Fish River near Fort Kent, Maine.....	135	871	1929-		
St. John River (at Fort Kent) below Fish River, at Fort Kent, Maine.	140	b5,690	1926-		
Madawaska River at Ste. Rose du Degele, Quebec.....	145	a1,010	1910-11.		
St. John River at Van Buren, Maine.....	150	b8,270	1908-28.		
Millinocket Lake (head of Aroostook River) in T.7, R.9, Maine.	155	74.1	1947-		
Aroostook River near Masardis, Maine.....	158	888	1957-		
Squa Pan Lake (head of Squa Pan Stream) in T.10, R.4, Maine.	160	67.1	1932-		
Machias River near Ashland, Maine.....	165	330	1951-		
Aroostook River at Washburn, Maine.....	170	1,652	1930-		
Aroostook River at Fort Fairfield, Maine.....	175	a2,230	1903-11.		
Meduxnekeag River:					
Timoney Lake Outlet Stream:					
Meduxnekeag River near Ludlow, Maine.....	179	1.47	1963-		
Marley Brook near Houlton, Maine.....	180	175	1940-		
St. Croix River basin					
St. Croix River at Vanceboro, Maine.....	185	417	1928-		
Grand Lake Stream (head of West Branch St. Croix River) at Grand Lake Stream, Maine.	190	224	1928-		
West Branch St. Croix River at Baileyville, Maine....	195	509	1910-12*.		
St. Croix River near Baileyville, Maine.....	200	1,320	1919-		
St. Croix River at Spragues Falls (at Woodland), near Baring, Maine.	205	a1,350	1902-5.		
St. Croix River at Baring, Maine.....	210	a1,390	1914d.		
Dennys River basin					
Dennys River at Dennysville, Maine.....	212	92.4	1955-		
Machias River basin					
Machias River at Whitneyville, Maine.....	215	457	1905-21;1929-		
East Machias River near East Machias, Maine.....	220	251	1926-59.		
Narraguagus River basin					
Narraguagus River at Cherryfield, Maine.....	225	232	1948-		
Union River basin					
West Branch Union (Union) River at Amherst, Maine.....	230	148	1909-19;1929-		
East Branch Union River near Waltham, Maine.....	235	123	1909.		
Webb Brook at Waltham, Maine.....	240	a50	1909.		
Green Lake (head of Green Lake Stream) at Green Lake.	245	-	1909-12*.		
Green Lake Stream at Lakewood, Maine.....	250	a47	1909-14.		
Branch Lake (head of Branch Lake Stream) near Ellsworth, Maine.	255	-	1909-14.		
Branch Lake Stream near Ellsworth, Maine.....	260	a31	1909-14.		
Union River at Ellsworth, Maine.....	265	537	1909d.		
Penobscot River basin					
West Branch Penobscot River:					
Reservoirs in West Branch Penobscot River basin, Maine	270	-	1901-		

West Branch Penobscot River at Millinocket, Maine.....	275			1901-60.
West Branch Penobscot River near Medway, Maine.....	280	a1,910 a2,120		1916-40.
East Branch Penobscot River:				
Telos Lake in T.6, R.11, Maine.....	285	a240		1942-
Grand Lake (East Branch Penobscot River at Grand Lake) in T.6, R.8, Maine.	290	c484		1912*;1942-
East Branch Penobscot River at Grindstone, Maine.....	295			
Penobscot River near Mattawamkeag, Maine.....	300	c1,070		1902-
Mattawamkeag River near Mattawamkeag, Maine.....	305	c3,310		1940-
Mattawamkeag River at Mattawamkeag, Maine.....	310	1,418		1934-
Piscataquis River (at Lows Bridge near Foxcroft) (near Foxcroft) near Dover-Foxcroft, Maine.	315	a1,500 297		1902-34. 1902-
Morrison Brook near Sebec Corners, Maine.....	316	4.37		1963-
Big Wilson Stream (head of Sebec River):				
Wilson Pond near Greenville, Maine.....	320	a36		1924-
Sebec Lake at Sebec, Maine.....	325	327		1924-
Sebec River at Sebec, Maine.....	330	327		1924-
Pleasant River near (at) Milo, Maine.....	335	322		1920-
Piscataquis River at Medford, Maine.....	340	1,161		1924-
Penobscot River at West Enfield (Montague), Maine.....	345	c6,600		1901-
Passadumkeag River at Lowell, Maine.....	350	299		1915-
Cold Stream at Enfield, Maine.....	355	28.5		1904-6.
Penobscot River at Passadumkeag, Maine.....	360	c7,000		1938-58.
Kenduskeag Stream near Kenduskeag, Maine.....	365	178		1941-
Kenduskeag Stream near Bangor, Maine.....	370	195		1908-19.
St. George River basin				
St. George River at Union, Maine.....	375	116		1914-15.
Sheepscot River basin				
Sheepscot River at North Whitefield, Maine.....	380	148		1938-
Kennebec River basin				
Moose River (head of Kennebec River):				
Brassua Lake near Rockwood, Maine.....	385	715		1928-
Moose River near Rockwood, Maine.....	390	715		1902-8;1910-12;1919-25.
Moosehead Lake:				
Roach River:				
Second Roach Pond near Kokadjo, Maine.....	395	24.7		1927-
First Roach Pond near Kokadjo, Maine.....	400	69.6		1927-
Moosehead Lake at East Outlet, Maine.....	405	1,266		1895-
Kennebec River at Moosehead, Maine.....	410	1,266		1919-
Indian Pond near Moosehead, Maine.....	415	1,382		1953-
Moxie Pond (head of Moxie Stream) near The Forks, Maine.	420	81.7		1927-
Kennebec River at The Forks, Maine.....	425	1,589		1901-
Dead River:				
Flagstaff Lake near Dead River, Maine.....	430	520		1949-
Dead River near Dead River, Maine.....	435	520		1939-
Dead River Pond at Dead River Dam, Maine.....	440	546		1927-53.
Spencer Stream:				
Spencer Lake (head of Little Spencer Stream) at Spencer Lake Outlet, Maine.	445	49.1		1927-
Dead River at The Forks, Maine.....	450	872		1901-7;1910-
Wyman Pond near Bingham, Maine.....	455	2,625		1930-
Austin Stream at Bingham, Maine.....	460	90.3		1931-
Kennebec River at Bingham, Maine.....	465	2,720		1907-10;1930-

* Gage heights, or gage heights and discharge measurements only.

a Approximately.

b Approximately; not including about 240 sq mi drained by Chamberlain Lake through Telos Canal.

c Approximately; including about 240 sq mi drained by Chamberlain Lake through Telos Canal.

d Discharge measurements only.
