Index of Surface-Water Records to September 30, 1970

Part 9.—Colorado River Basin

INTRODUCTION

This report lists the streamflow and reservoir stations in the Colorado River basin for which records have been or are to be published in reports of the Geological Survey for periods through September 30, 1970. It supersedes Geological Survey Circular 579. It was updated by personnel of the Data Reports Unit, Water Resources Division, Geological Survey.

Basic data on surface-water supply have been published in an annual series of water-supply papers consisting of several volumes, including one each for the States of Alaska and Hawaii. The area of the other 48 States is divided into 14 parts whose boundaries coincide with certain natural drainage lines. Prior to 1951, the records for the 48 States were published in 14 volumes, one for each of the parts. From 1951 to 1960, the records for the 48 States were published annually in 18 volumes, there being 2 volumes each for Parts 1, 2, 3, and 6.

Beginning in 1961, the annual series of water-supply papers on surface-water supply was changed to a 5-year series, and records for the period 1961-65 were published in 37 volumes, there being 2 or more volumes for each of 11 parts and one each for parts 10, 13, 14, 15 (Alaska), and 16 (Hawaii and other Pacific areas). These part boundaries and the volumes within each part are shown on a map (Figure 1). Records for the 5-year period 1966-70 will be published in a similar series of water-supply papers. District offices of the Water Resources Division, Geological Survey, have also issued interim annual reports since 1961 to meet immediate local needs for streamflow records within the State or States comprising the district.

Records prior to 1951 for the Colorado River basin are summarized in Water-Supply Paper 1313, and those from 1951 to 1960 are summarized in Water-Supply Paper 1733; each of these summaries lists the earlier publications in which more detailed information was published. Records for 1961-65 are published in Water-Supply Papers 1924, 1925, and 1926; those for 1966-70 will be published in Water-Supply Papers 2124, 2125, and 2126.

In addition to the continuous-record gaging stations, this index includes crest-stage and low-flow partial-record stations. A continuous-record station is a gaging station on a stream or reservoir for which the discharge, stage, or contents is published on a daily, weekly, or monthly basis for a continuous period of time. A crest-stage partial-record station is a streamflow station for which only the annual maximum discharge is published over a period of years for use in floodflow analyses. A low-flow partial-record station is a streamflow station for which only discharge measurements made at base flow, when streamflow is primarily from ground-water storage, are published; measurements are generally collected over a period of five years or more for use in low-flow analyses. Discharge measurements have been made at many sites and published as miscellaneous measurements; such measurements are not included in this index except those made in earlier years at sites now classified as low-flow partial-record stations.

Explanation of reference marks is given at the end of the index.

An alphabetical list of streams, lakes, and reservoirs is given at the end of this circular.

DOWNSTREAM ORDER

The stations in this index are listed in the downstream order used in the series of water-supply papers on surface-water supply of the United States since 1951. Starting at the headwater of each stream, all stations are listed in a downstream direction. Tributary streams are indicated by indentation (one indentation of two spaces for each rank) and are listed between main-stem stations in downstream order as they enter the main-stem stream. Likewise, streams of less important rank are listed similarly in downstream order as they enter between stations on the stream of more important rank. If station names fail to show the complete sequence of tributaries and ranks, a stream name only is inserted to complete the series unless that series is complex and undetermined, in which case a double indentation (four spaces) is used to indicate that the ranking of tributaries is incomplete.

STATION NAME

Station names are given in their most recently published form. Parentheses around part of a station name indicate that the enclosed word or words were used in an earlier published name of the station or as an alternate name. Parenthetical explanations are also used to indicate that a stream of a different name is the head of the main stream by use of "(head of _____ River)" and that the name of the main stream has changed by use of "(continuation of _____ River)."

STATION NUMBER

As an added means of identification, each continuous- and partial-record station has been assigned a station number. The numbers have been assigned in the same downstream order used in this index. In assigning station numbers, gaps were left to allow for new stations that may be established; hence the numbers are not consecutive. The complete number for each station consists of 8 digits. The first 2 digits represent the part number and the last 6 the station number. For example, the complete number for a station in this part would be 09315000.

DRAINAGE AREA

The drainage area, in square miles, is the latest figure published or otherwise available at this time.

PERIODS OF RECORD

Under "Periods of record" are three columns. The first column, "Daily or monthly figures," shows the periods of record for continuous-record gaging stations. The dates given are the calendar years in which records began or ended; breaks of less than a year are not shown. For example, if a record began in October 1923, ended in April 1932, began again in March 1933, and ended in September 1944, the period of record would be shown as 1923-44.

The second column, "Annual peaks," shows the period of record for crest-stage partial-record stations. The dates given are the water years for which the annual maximum discharge is available. The water year begins October 1 and ends September 30. In listing the water year, only one date is shown; for example 1962 stands for the water year October 1, 1961, to September 30, 1962.

The third column, "Low-flow measurements," shows the period of record for low-flow partial-record stations. The dates given are the water years in which base-flow measurements were made at low-flow partial-record stations; breaks of less than two years are not shown. Prior to the 1958 water year, such measurements were published in tables headed "Miscellaneous discharge measurements" or "Discharge measurements at sites other than gaging stations." Many discharge measurements have been made at miscellaneous sites which are not listed in this index because the data collected were not sufficient to qualify the site as a low-flow partial-record station.

A date followed by only a dash shows that the station was continued in operation beyond September 30, 1970. A date followed by a period indicates discontinuance. A date followed by a semicolon indicates a break in the collection of records.

Periods of record for the same continuous-record station published by other agencies (or available only in files of the Geological Survey or another agency) are listed only when they are for periods not published in reports of the Geological Survey. These periods are indicated by symbols and footnotes. Records collected by other agencies are included only for stations for which there is some record published in Geological Survey reports.

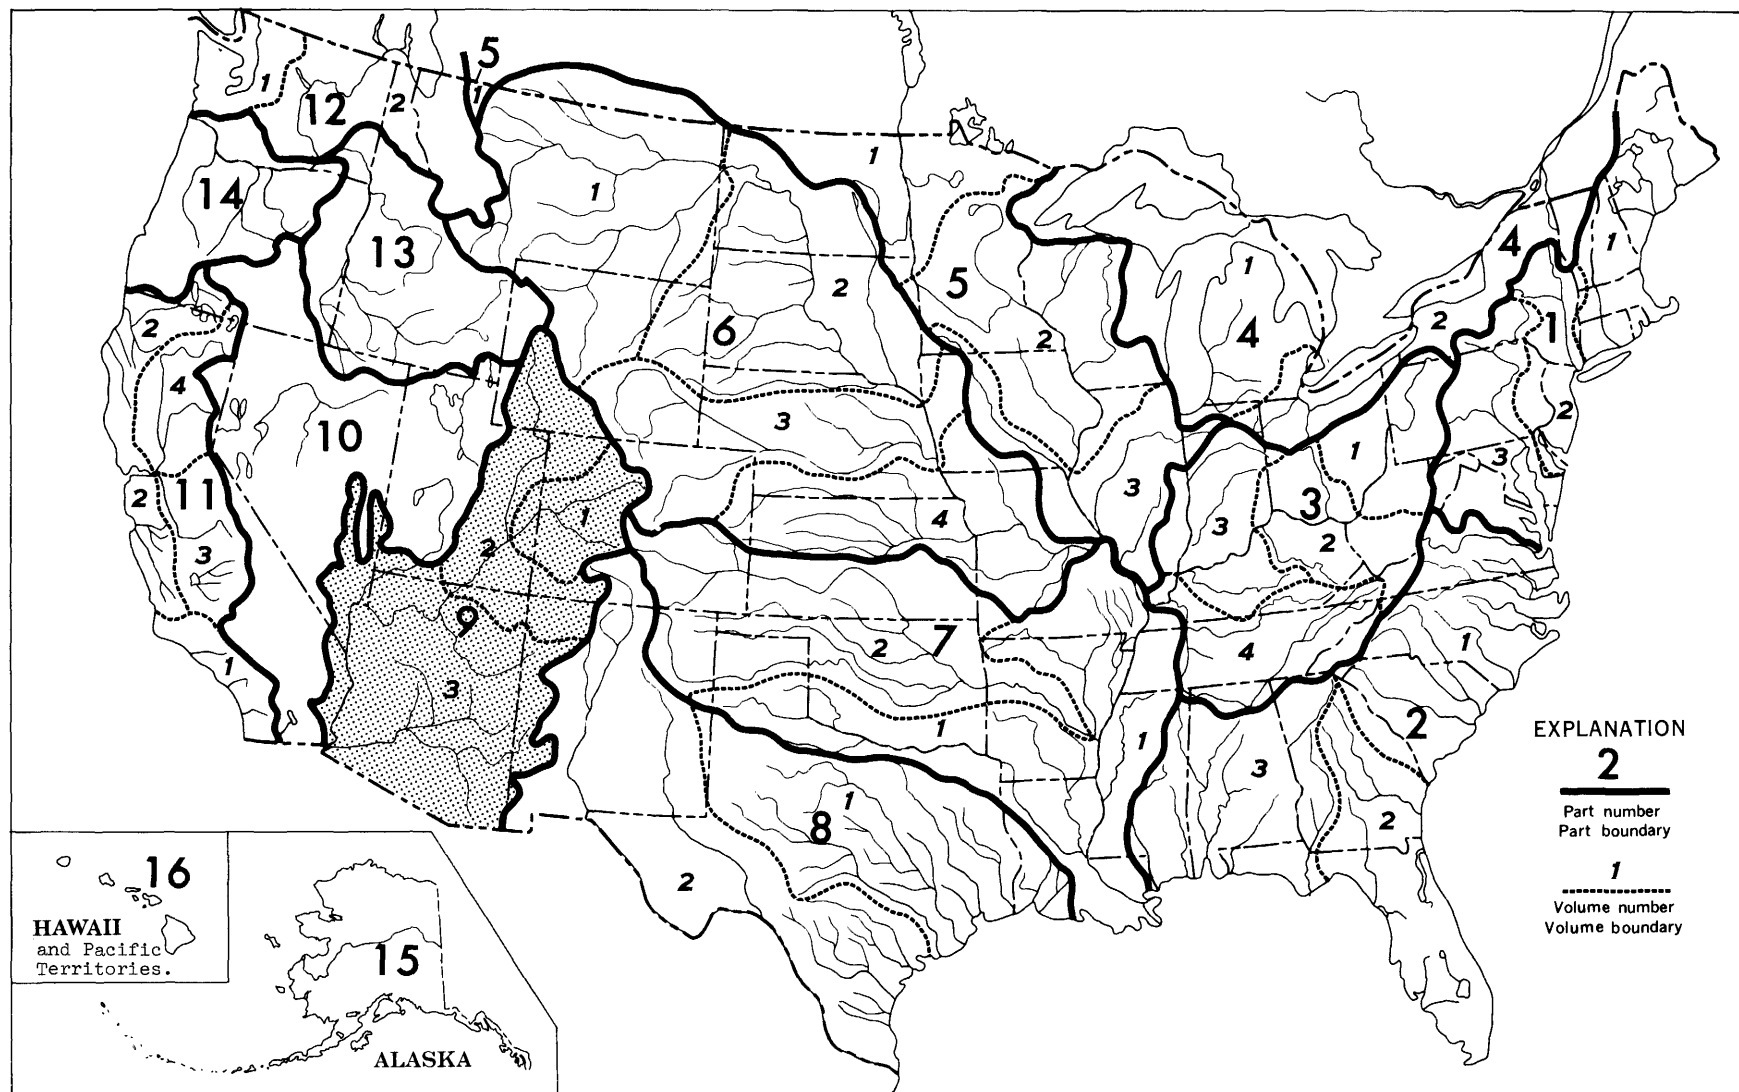

Figure 1.--Map of the United States showing area covered by the volumes in the series on surface-water supply. The area covered by this index is shaded.

Station name	Station number	Drainage area (sq mi)	Periods of record		
			Daily or monthly figures (calendar years)	Annual peaks (water years)	Low-flow measurements (water years)
COLORADO RIVER BASIN					
Colorado River:					
TRANSMOUNTAIN DIVERSION AT LA POUDRE PASS					
Grand River ditch at La Poudre Pass, Colo.....	09010000	-	1895-1903;1904-9b;1910-		
LADY CREEK BASIN

Onahu Creek near Grand Lake, Colo.....	09010600	8.84	1969.		
Colorado (Grand) (North Fork of Grand) River near Grand Lake, Colo.	09011000	102	1904-18;1933-		
LITTLE COLUMBINE CREEK BASIN					
Little Columbine Creek above Shadow Mountain Lake (Reservoir), at Grand Lake, Colo.	09011500	1.65	1950-55.		
GRAND LAKE OUTLET BASIN					
North Inlet (head of Grand Lake Outlet):					
Tonahutu Creek:					
Eureka ditch near Flattop Mountain, Colo.....	09012000	-	1939-		
Tonahutu Creek near Grand Lake, Colo.....	09012400	a16	1969.		
North Inlet at (to) Grand Lake, Colo.....	09012500	45.9	1905-9;1910-12;1947-55.		
Grand Lake:					
Alva B. Adams tunnel at east portal, near Estes Park, Colo.	09013000	-	1946-		
East Inlet near Grand Lake, Colo.....	09013500	27.2	1947-55.		
Grand Lake Outlet at Grand Lake, Colo.....	09014000	76.3	1904-9;1910-13.		
Shadow Mountain Lake (Reservoir) near Grand Lake, Colo	09014500	185	1947-		
Colorado River below Shadow Mountain Lake (Reservoir) (Dam), Colo.	09015000	185	1947-59.		
COLUMBINE CREEK BASIN					
Columbine Creek above Lake Granby (Granby Reservoir), near Grand Lake, Colo.	09015500	7.38	1950-55.		
ROARING FORK BASIN					
Roaring Fork above Lake Granby (Granby Reservoir)...	09016000	5.95	1951-55.		
ARAPAHO CREEK BASIN					
Arapaho Creek at Monarch Lake Outlet, Colo.....	09016500	46.9	1944-		
Arapaho Creek below Monarch Lake, Colo.....	09017000	a59	1934-44.		
Arapaho Creek (South Fork of Grand River) near Lehman, Colo.	09017500	a68	1907-8.		
STILLWATER CREEK BASIN					
Stillwater Creek above Lake Granby (Granby Reservoir), near Grand Lake, Colo.	09018000	17.5	1950-55.		
Lake Granby (Granby Reservoir) near Granby, Colo.....	09018500	312	1949-		
Colorado River below Lake Granby (Granby Reservoir)...	09019000	312	1950-		
Colorado (Grand) River near Granby, Colo.....	09019500	323	1907-11;1933-53;1961-		
WILLOW CREEK BASIN					
Willow Creek near Granby, Colo.....	09020000	139	1934-53.		
Willow Creek above Willow Creek Reservoir, Colo.....	09020500	127	1953-60.		
Willow Creek Reservoir near Granby, Colo.....	09020700	134	1953-		
Willow Creek below Willow Creek Reservoir, Colo.....	09021000	134	1953-		
FRASER RIVER BASIN					
Fraser River:					
Tributaries near Berthoud Pass:					
Berthoud Pass ditch at Berthoud Pass, Colo.....	09021500	-	1910-31b;1932-		

Fraser River at upper station, near Winter Park (near Fraser), Colo.	09022000	10.5	1908-9;1911*;1968-
Moffat water tunnel at East Portal, Colo.....	09022500	-	1935-
(Big, East) (Little, West) Jim Creek at Winter Park (at mouth, near Fraser), Colo.	09023000	5.69	1907-9.
Fraser River above Winter Park (West Portal) (at lower station, near Fraser), Colo.	09023500	22.4	1907-9;1934-37.
Fraser River near Winter Park (Arrow) (West Portal).	09024000	27.6	1910-
Vasquez Creek at upper station, near Winter Park (Fraser), Colo.	09024500	19.5	1908*;1909.
Vasquez Creek (River) near Winter Park (West Portal) (at lower station, near Fraser).	09025000	27.8	1907;1908*;1909;1933-
Elk Creek near Fraser, Colo.....	09025400	a7	1970-
Elk Creek at Fraser (at mouth, near Fraser), Colo.	09025500	9.56	1907-9.
St. Louis Creek at upper station, near Fraser.....	09026000	21.3	1908-9.
St. Louis Creek near Fraser, Colo.....	09026500	32.9	1933-
St. Louis Creek at lower station, near Fraser.....	09027000	38.0	1908*;1909.
Ranch Creek (North Ranch Creek at upper station) near Rollins Pass, Colo.	09027500	2.01	1908-9.
Ranch Creek above forks, near Fraser, Colo.....	09028000	3.92	1937-42.
North Fork Ranch Creek near Fraser, Colo.....	09028500	3.27	1937-42.
Ranch Creek above Middle Fork, near Fraser (North Ranch Creek at lower station, near Rollins Pass), Colo.	09029000	9.83	1907-9.
Middle Fork Ranch (Middle Ranch) Creek at upper station, near Winter Park (Arrow), Colo.	09029500	3.37	1908-9.
Middle Fork Ranch Creek near Fraser, Colo.....	09030000	4.27	1937-42.
South Fork Ranch Creek near Winter Park (West Portal) (South Ranch Creek at upper station, near Arrow), Colo.	09030500	2.94	1908-9;1936-42.
South Fork Ranch Creek near Fraser (South Ranch Creek at lower station, near Arrow).	09031000	5.05	1907-9.
Middle Fork Ranch (Middle Ranch) Creek at lower station, near Fraser (Arrow), Colo.	09031500	10.0	1907-9.
Ranch Creek near Fraser, Colo.....	09032000	19.9	1934-
Ranch Creek near Tabernash, Colo.....	09032500	51.3	1934-60.
Meadow Creek near Tabernash, Colo.....	09033000	8.03	1935-56.
Strawberry Creek near Granby, Colo.....	09033500	11.6	1935-45.
Fraser River at Granby (near Coulter), Colo.....	09034000	297	1904-9;1937-55.
Colorado (Grand) River at Hot Sulphur Springs (Sulphur Springs), Colo.	09034500	825	1904-
LITTLE MUDDY CREEK BASIN			
Little Muddy Creek near Parshall, Colo.....	09034800	6.52	1958-65.
WILLIAMS FORK (RIVER) BASIN			
Bobtail Creek (head of Williams Fork) near Jones Pass, Colo.	09034900	5.49	1965-
August P. Gumlick (Jones Pass) tunnel at east portal near Jones Pass, Colo.	09035000	-	1939-c
Williams Fork (River) below Steelman Creek, Colo....	09035500	16.3	1933-41;1965-
Williams Fork above Darling Creek, near Leal, Colo..	09035700	35.2	1965-

* Gage heights, or gage heights and discharge measurements only.

a Approximately.

b Yearly figures of discharge only.

c Published with station No. 09036000 Williams Fork near Leal, Colo., since water year 1959.

d Includes 1.4 sq mi in Yampa River basin.

e Includes area above diversion.

f Storm runoff for summer season only (report in preparation).

g Records not equivalent to later records owing to diversion of Cattleman's ditch.

h Published in WSP 1475-I, Hydrology of Small Watersheds in Western States 1954-59, and in WSP 1532-B, Hydrologic and Biotic Characteristics of Grazed and Ungrazed Watersheds of the Badger Wash Basin in Western Colorado, 1953-58 (another report is in preparation covering the entire period 1953-66).

i Combined record published in WSP 1532-B; see preceding footnote also.

j To be published in Hydrologic and Biotic Characteristics of Grazed and Ungrazed Watersheds of the Badger Wash basin in Western Colorado, 1953-66 (report in preparation).

k Published in WSP 1475-I, Hydrology of Small Watersheds in Western States.

m Approximately, includes area which is probably noncontributing.

n Approximately, includes area above diversion.

p In files of State engineer of Utah.

q Fragmentary.

r In files of Bureau of Reclamation.

s In files of State engineer of New Mexico.

t Average yearly runoff only, published in Circular 110.

u Includes area which is probably noncontributing.

v In files of district office.

w Published as an adjustment to preceding or following station.

x Excludes Animas Valley.

1/ Drains to Gulf of California through Mexico.

2/ Drains southern part of Sulphur Spring Valley into Gulf of California through Rio Yaqui in Mexico.
