

DEPARTMENT OF THE INTERIOR  
UNITED STATES GEOLOGICAL SURVEY

**GEOLOGIC MAP AND COAL RESOURCES OF THE  
EMERY WEST QUADRANGLE, EMERY AND SEVIER COUNTIES  
UTAH**

**By Philip T. Hayes and Joseph D. Sanchez**

COAL INVESTIGATIONS MAP  
Published by the U.S. Geological Survey, 1979  
G

**GEOLOGIC MAP SYMBOLS**  
**COMMONLY USED ON MAPS OF THE UNITED STATES GEOLOGICAL SURVEY**  
(Special symbols are shown in explanation)

	Contact—Dashed where approximately located; short dashed where inferred; dotted where concealed
	Contact—Showing dip; well exposed at triangle
	Fault—Dashed where approximately located; short dashed where inferred; dotted where concealed
	Fault, showing dip—Ball and bar on downthrown side
	Normal fault—Hachured on downthrown side
	Fault—Showing relative horizontal movement
	Thrust fault—Sawteeth on upper plate
	Anticline—Showing direction of plunge; dashed where approximately located; dotted where concealed
	Asymmetric anticline—Short arrow indicates steeper limb
	Overtured anticline—Showing direction of dip of limbs
	Syncline—Showing direction of plunge; dashed where approximately located; dotted where concealed
	Asymmetric syncline—Short arrow indicates steeper limb
	Overtured syncline—Showing direction of dip of limbs
	Monocline—Showing direction of plunge of axis
	Minor anticline—Showing plunge of axis
	Minor syncline—Showing plunge of axis

Strike and dip of beds—Ball indicates top of beds known from sedimentary structures		
		Horizontal
		Overtured
Strike and dip of foliation		
		Vertical
		Horizontal
Strike and dip of cleavage		
		Vertical
		Horizontal
Bearing and plunge of lineation		
		Vertical
		Horizontal
Strike and dip of joints		
		Vertical
		Horizontal
Note: Planar symbols (strike and dip of beds, foliation or schistosity, and cleavage) may be combined with linear symbols to record data observed at same locality by superimposed symbols at point of observation. Coexisting planar symbols are shown intersecting at point of observation.		
Shafts		
		Inclined
Adit, tunnel, or slope		
		Inaccessible
Prospect		
Quarry		
		Abandoned
Gravel pit		
		Abandoned
Oil wells		
		Dry hole, abandoned
		Show of gas
		Show of oil
