

E X P L A N A T I O N

-  DRAINAGE DIVIDE
-  POINTS OF PRECIPITATION OBSERVATION
-  MEASUREMENT STATION  
Selected stations of the U.S. Weather Bureau. Index numbers are those used in U.S. Weather Bureau publications.
-  2P  
Sites have been assigned an index number for use in this report.
-  POINTS OF SURFACE-WATER OBSERVATION
-  2121  
CONTINUOUS-RECORD STREAM-GAGING STATION
-  2098.1B  
PARTIAL-RECORD STREAM-GAGING STATION
-  2096.1  
LAKE, POND, OR RESERVOIR GAGING STATION
-  2098.1  
WATER-QUALITY SITE  
Site with one or more chemical analyses.
-  Ss—Turbidity or suspended sediment analyses.
-  T—Daily temperature measurements made for a period of one year.
-  Index numbers are those used in U.S. Geological Survey publications.
-  POINTS OF GROUND-WATER OBSERVATION
-  CONTINUOUS OR PERIODIC WATER-LEVEL MEASUREMENTS AVAILABLE
-  CHEMICAL ANALYSIS AVAILABLE
-  RADIOLOGIC LOG AVAILABLE
-  WATER WELL
-  TEST HOLE  
Logs are available for oil test holes.
-  Index numbers are those used in U.S. Geological Survey publications. Wells and test holes are each numbered separately within each town.
