EXPLANATION	
Depositional environments	
	Continental deposits; includes fluvial and tidal sandstones, mudrock, carbonaceous shale, and coal
	Shoreface sandstones
	Offshore to marine mudrocks and shale
	Trough or planar-tabular cross stratification
	Current ripples
	Horizontal or subhorizontal bedding
	Convoluted bedding
	Lamination
	Mud clasts
	Chert clasts
	Coal or plant fragments
	Coal
	Altered volcanic ash
	Hummocky cross stratification
	Wave ripples
	Flaser bedding
	Wavy bedding
	Lenticular bedding
	Streaky bedding
	Erosional contact
	Sharp contact
	Roots
	Planolites
	Ophiomorpha
	Burrows
