

Class	White Lake Terrace	Vermilion Bay Terrace
Newly created wetlands non-project	1	15
Vegetated terraces	23	57
Preexisting wetlands	42	57
Water	160	915
Mud flats	482	518
Total acres	708	1,562

Data information
The land-water data were derived from 1:6,000-scale, color-infrared aerial photography obtained on November 5, 2010. All areas characterized by emergent vegetation, wetland forest, scrub-shrub and upland were classified as preexisting wetlands, while open water and aquatic beds were classified as water. The 2010 data includes a mud flat classification because of tidal fluctuations resulting in mud flat exposure.
